Residential Stormwater Management Commercial Stormwater Management Professional Irrigation Flow Management

2021

ndspro.com

Since 1972, NDS has been producing plastic drainage and landscape products. From the beginning, our commitment to leading the industry has been unwavering, leading to remarkable innovations and state-of-the-art products that fit every environment, every schedule, every need.

Today, our commitment to providing one-source solutions has led to the development of superior quality drainage products, landscape products, fittings, valve and meter boxes, and drip and micro irrigation products. No product is added to our line without meeting exhaustive testing and extensive research requirements. Plus, NDS is uniquely able to offer our complete inventory of products from regional warehouses in the US and Puerto Rico. Our goal: one-business-day delivery. Our track record: outstanding.

Take a moment to look through this catalog, noting the depth of our product offering. If you have any questions or to place an order, just call 1-800-726-1994 from 5 a.m. to 5 p.m. PST and let us offer the best solution to you.

#### **THE NDS BRAND PROMISE**

NDS is your knowledgeable and trusted partner for the best in water management solutions.

Our products are engineered and produced for performance, durability, ease of installation and the efficient use of resources.

We provide the service and support to ensure that you are successful.

## We put water in its place

## **TABLE OF CONTENTS**

NDS products have been a reliable and trusted choice for use on over 500 projects. Never a problem, never a failure.

David Silver AAA Landscape Specialists, Inc. President and CEO

## We put water in its place

# **RESIDENTIAL SOLUTIONS**

## Water Management at Any Scale

#### Water on Patio/Pool Deck

**Channel Drains** prevent water pooling on patio or pool deck, potentially causing moss or mildew growth, concrete staining, and dangerous slip hazards. (*pp. 52-87*)

#### Flow Management

**Ball Valves and Check Valves** are integral components of aquatic pump and filter assemblies. (*pp. 148-157*)

#### Downspout Runoff

Catch Basin and Grates remove water from downspouts and away from foundations. (*pp. 26-35*)

#### Landscape Irrigation

**Drip and Micro Irrigation** conserve water by delivering it efficiently to plants and turf. See Professional Irrigation (pp. 102-139)

#### Water on Driveway

**Channel Drain and Grates** collect sheets of water moving across driveways and sidewalks. (*pp. 52-87*)

#### Stormwater Detention & Infiltration

**NDS<sup>®</sup> StormChambers<sup>®</sup> and Flo-Well<sup>®</sup>** provide high-volume detention and infiltration capacity for managing stormwater runoff close to the source. (*pp. 14-25*)

#### Neighbor Runoff

**EZflow® and Flo-Well®** remove water draining from adjacent property and pooling in a planter area, or near the home's foundation, potentially causing a variety of drainage problems. (*pp. 14-25*)

#### Water against Foundation

**EZflow**<sup>®</sup> relieves hydrostatic pressure from elevated groundwater, preserving building integrity. (pp. 19-21)

#### Safe Sidewalks

**Root Barriers** prevent roots from intruding under and ultimately lifting pavement. (*pp. 96-99*)

#### Drain Fittings

Secure pipe connections are critical to any drainage system. See Fittings (pp. 170-189)

#### Excess Water in Planting Areas

Atrium Grates protect plants by removing excess water. (p.47)

#### Water on Walkway

**Channel Drains and Grates** remove water pooling on walkway, potentially causing moss or mildew growth, concrete staining, and slip hazards. (*pp. 52-87*)

# **NEIGHBORHOOD SOLUTIONS**

## Water Management at Any Scale

#### Reinforced Turf & Gravel

Permeable Paver Systems used in firelanes, service vehicle access ways and overflow parking produce significantly less stormwater runoff than hard surfaces. (*pp. 90-95*)

#### Permeable Pavers

**EZ Roll™** gravel patios and walkways maintain permeability and reduce runoff. (*p. 94*)

# Stormwater Detention & Infiltration

Using **Dry Wells** and **Infiltration Trenches** is a best management practice for treating stormwater runoff close to its source. (*pp. 18-25*)

# Stormwater Detention & Infiltration

NDS<sup>®</sup> StormChambers<sup>®</sup> offer a lower cost alternative to drainage pipes. (pp. 15, 19, 22-23)

anag

#### Downspout Runoff

Catch Basins and Grates remove stormwater from downspouts and away from foundations and landscaped areas. (*pp. 26-35*)

#### Landscape Irrigation

**Drip and Micro Irrigation** conserve water by delivering it efficiently to plants and turf. See Professional Irrigation (pp. 102-139)

for videos, specs, detail drawings and case studies, visit **ndspro.com** 

9

# **COMMUNITY SOLUTIONS**

Water Management at Any Scale

#### Large Roof Runoff

High-Capacity Subsurface Detention and Infiltration Systems including NDS<sup>®</sup> StormChambers<sup>®</sup> manage large roof runoff volumes in adjacent green areas or under parking lots. (pp. 18-25)

#### Athletic Field Drainage

Playability after rain events is critical in maintaining field integrity. **EZflow**<sup>®</sup> is an ideal drainage system for many field types. (*pp. 19-21*)

#### Reinforced Turf

#### Permeable Paver Systems used

in grassed access ways produce significantly less stormwater runoff than hard surfaces. (pp. 90-95)

#### Subsurface Irrigation

**Dura Flo™ CV Check Valve Drip Line** is the efficient choice for healthy turf. (*p.* 108-109)

#### 400M Track Runoff

**Dura Slope™ EZ-Track™ System** uses radius couplings to easily make the turn on running tracks, eliminating difficult miter cuts. (*p.* 77)

#### Landscape Irrigation

**Drip and Micro Irrigation** conserves water by delivering it efficiently to plants and turf. *See Professional Irrigation (pp. 102-139)* 

#### Courtyard Runoff

Catch Basins (pp. 26-35) and Channel Drains (pp. 52-87) keep pedestrian areas well-drained.

#### Pool Deck Drainage

**Channel** and **Trench Drains** keep the pool deck dry and safe with many decorative and heel-proof grate options. (*pp. 52-87*)

#### Safe Pool Deck

**Root Barriers** preserve the integrity of adjacent paved areas by preventing root intrusion. (*pp.* 96-99)

# Reinforced Gravel with Delineators

**EZ Roll™** gravel parking areas maintain permeability and reduce runoff, while **EZ Marker™** clearly delineates parking stalls. (*pp. 94-95*)

#### Flow Management

**Ball and Check Valves** are integral components of aquatic pump and filter assemblies. (*pp. 148-157*)

# DRAINAGE

From your backyard patio to the neighborhood aquatic center, from the factory floor to a professional sports facility, NDS offers the right drainage solutions.

## **COMMERCIAL STORMWATER SOLUTIONS**

**NDS**<sup>®</sup> offers comprehensive commercial stormwater solutions in line with Low Impact Development policies by managing stormwater as close to its source as possible through runoff reduction and quality enhancement at the site scale. Our solution is built around known and trusted components, providing solutions that offer 5 key benefits:

- Conservation of water resources to improve our well-being
- Management of stormwater at the source to reduce downstream impact
- Flexibility of system footprint allows for adaptive implementation
- Mitigation of pollution and erosion to protect water systems
- Replenishment of groundwater to help ensure future supply

A single-source solution, NDS is easy to specify, qualifies for LEED credits and offers up to 250% more detention volume than traditional gravel systems.

Elbow

# **Design Your System**

An effective onsite stormwater system can be designed in 5 easy steps:

**Identify Sources -** Stormwater runoff may come from point sources like downspouts, as sheet flow from parking lots, irregularly through drainage ways in the landscape, or even as elevated groundwater.

2 Select Method of Capture - Each runoff source has a practical method of capture for conveyance to the detention and infiltration area.

- 3 Determine Peak Flow and Detention Volume -The quantity of runoff for a given rainfall event over a defined area is easily calculated when surface type and rainfall intensity are known by using the Rational Method formula Q = CiA. Applicable regulations generally provide guidance on the rainfall intensity to use for a given set of circumstances.
- 4 Size the System Detention and infiltration devices have measured holding capacities. Select the appropriate quantity and arrangement of devices to handle the predetermined runoff volume calculated above. Also consider the capacity of conveyance and overflow piping.
- 5 Determine Field Layout Site constraints including setbacks, landform, soil types, fixed objects and open space, among others, will inform the location and arrangement of system components. Each element of runoff capture, filtration, conveyance, detention, infiltration and overflow must be considered.

#### CAPTURE

**Catch basins** receive runoff from downspouts and landscaped areas. **Channel drains** accept sheet flows from paved walks and parking.

#### FILTRATION

Basins and channel grates provide a front line of debris filtration; adding fabric filters contributes further removal of fines from stormwater, extending system life. Chamber systems have advanced filtration options.

#### CONVEYANCE

Smooth-wall and corrugated pipe with compatible fittings and adapters convey stormwater from the point of capture to the detention and infiltration area. Select pipe type and set pipe slope to handle the anticipated runoff volumes based on established pipe-flow characteristics. Using EZflow for conveyance may reduce the footprint of downstream detention and infiltration areas.

Filte

Adap

End C

#### **DETENTION & INFILTRATION**

**Flo-Well®** manufactured dry wells provide 50 gallons of detention volume. Each unit has multiple connection points including sidewall and top-cover knock outs to receive 3" to 8" pipe. Flo-Wells are stackable and can be arranged in multiple configurations.

**EZflow®** engineered French drains are 10' bundles of Poly-Rock aggregate with or without corrugated drain pipe. Bundles are available in 7", 10" and 15" diameters, with or without 3", 4" or 6" pipe, respectively. A standard infiltration trench consists of a 10" bundle with 4" pipe atop two 15" aggregate-only bundles, providing over 100 gallons of detention volume.

NDS® StormChamber® provides a lower cost alternative to drainage pipes for conveyance, with added benefits of groundwater recharge and water quality enhancement. Chambers eliminate the need for restrictive holding ponds and can be stacked in many applications to reduce footprint and save valuable land space.

#### OVERFLOW

**Pop-up emitters** allow excess runoff beyond system capacity to discharge in a safe location.

Pipe

# () NDS

# SUSTAINABLE STORMWATER SOLUTIONS

## NDS components can be configured to meet a wide variety of residential and commercial applications.

#### CAPTURE

NDS offers several options to collect stormwater from various sources.

- Catch basins function effectively as area drains and for downspouts from roofs
- · Channel drains intercept sheet flow from paved surfaces
- Permeable grass and gravel paver systems with underdrains collect stormwater from walkways and parking areas when used as alternatives to traditional impermeable solutions

#### FILTER

Prevent debris and other suspended solids in stormwater from impairing system function.

- · Basin and channel grates provide a front line of mechanical filtration
- Fabric filters contribute further removal of fines from stormwater, extending system life
- Grass and gravel paver systems naturally filter and clean stormwater while flowing through the permeable paver solutions

#### CONVEY

Move stormwater from its sources to downstream detention, infiltration and overflow components.

- Smooth-wall and corrugated pipe with appropriate fittings and adapters have known flow characteristics to get the job done
- Using EZflow<sup>®</sup> for conveyance will also increase system detention and infiltration, effectively reducing the footprint of the downstream detention area

#### DETAIN

NDS detention components provide efficient volume to minimize runoff and maximize infiltration.

 Flo-Well<sup>®</sup> dry wells, NDS<sup>®</sup> StormChamber<sup>®</sup> and EZflow<sup>®</sup> infiltration-trench arrangements have defined volumes for this purpose.

#### INFILTRATE

Arrange Flo-Well<sup>®</sup> dry wells, NDS<sup>®</sup> StormChamber<sup>®</sup> and EZflow<sup>®</sup> infiltration trenches in customizable configurations and at depths suitable to existing site conditions, soil types and groundwater elevations.

 Flo-Well<sup>®</sup> has an open bottom and side knockouts to allow direct infiltration, and EZflow<sup>®</sup> maximizes soil-contact area for effective infiltration

#### **OVERFLOW**

Allow for excess stormwater beyond the design storm to overflow from the system in a safe, suitable downstream location.

#### THE NDS SOLUTION

Whether you need a dry well, French drain or infiltration trench, NDS has you covered with innovative and proven subsurface drainage and stormwater infiltration products. EZflow® French drain system, NDS® StormChamber® and Flo-Well<sup>®</sup> dry well provide trusted performance for multiple applications and are lightweight and easy to install. These engineered solutions are proven time-and-labor savers that outperform traditional systems in flow through and storage capacity. When performance and sustainability matter, NDS solutions are the preferred choice of contractors, engineers and landscape architects. EZflow®, NDS® StormChamber® and Flo-Well® are made in the USA and each contribute to and landscape architects. EZflow<sup>o</sup>, NDS<sup>o</sup> Stormonamber<sup>o</sup> and Flo-weil are made in the corr and cach contributing to the proportion of recycled materials.

#### **EZflow**<sup>®</sup>

EZflow® offers an engineered and gravel-free alternative to a traditional French Drain system. EZflow® can be used to lower subsurface groundwater elevations; protecting property and improving the health of playing fields and planted areas. It can also be used as an infiltration trench for managing stormwater runoff. Available in multiple diameters with or without pipe, this versatile product is an effective component of subsurface drainage and infiltration systems.

- · Installs in half the time of traditional gravel systems
- Better flow capacity than traditional stone-and-pipe systems
- Up to H-10 load rating with 12" of compacted soil cover
- Over 100 million linear feet installed

#### NDS<sup>®</sup> StormChamber<sup>®</sup>

Stormwater chambers provide a lower cost alternative to drainage pipes for conveyance, with added benefits of groundwater recharge and water quality enhancement. Stronger and easier to maintain, NDS® StormChamber® is the ideal solution for stormwater detention and/or infiltration, providing easy installation and design flexibility to meet target stormwater runoff rates, volume control and water quality requirements.

- Thermo-formed high density weight polyethylene HMWPE material won't crack
- 100-year life expectancy Longest on the market
- Saves time and money offers the lowest installed cost
- Proprietary SedimenTrap<sup>™</sup> offers centralized sediment control, gathering sediment and pollutants in one place for quick removal by vacuum truck.

#### **Flo-Well<sup>®</sup>**

Flo-Well® engineered dry well presents an easy to install and sustainable solution for managing stormwater runoff. Flo-Well® is a gravel-free alternative to a traditional dry well with up to 250% more detention volume. Used independently or as part of a larger system, Flo-Well<sup>®</sup> units collect and detain stormwater allowing for groundwater recharge. Units are modular and can be connected in series or stacked to meet a variety of project needs.

- Up to 50 gallons of detention volume per unit
- · Connect units in series for larger volumes or stack for reduced footprint
- Fast and easy installation with no heavy equipment or gravel needed
- Manufactured from 100% recycled materials

#### **EZFLOW®:** A BETTER FRENCH DRAIN

Gravel-free installation provides up to 50% labor savings over traditional systems Better flow through and detention volume than traditional systems Durable with a 100-year materials lifespan when installed Projects qualify for LEED credits

### EZflow<sup>®</sup> Drainage Bundles

EZflow<sup>®</sup> drainage bundles are 10 feet in length with a slotted pipe surrounded by expanded polystyrene aggregate and enclosed in geotextile mesh. Configurations are available in 7-inch bundles with or without a 3-inch pipe, 10-inch bundles with or without a 4-inch pipe, and 15-inch bundles with or without a 6-inch pipe. Accessories include 3-inch, 4-inch, and 6-inch internal couplers and end caps. EZflow<sup>®</sup> bundles can also be used with internal tee and internal wyes. The 15-inch bundles are available with the pipe located in the center or bottom of the bundle for varying application Unless specifically required by code or other requirement, the pipe can be either centered or at the bottom of the bundle. GEOTEXTILE MESH FABRIC

GEOSYNTHETIC POLY-ROCK \_\_ AGGREGATE LOTTED ORRUGATED DRAIN PIPE

#### Applications

French/Interceptor Drains

#### Planter/Retaining Walls

#### **Foundation Drains**

Basement/Crawlspace

EZflow<sup>®</sup> drainage systems are appropriate for a wide range of applications and are a convenient alternative to traditional stone and pipe drainage, storage and infiltration systems. EZflow<sup>®</sup> drainage systems can be used as a substitute for stone in most applications where the stone is not utilized for structural support. A professional engineer, landscape architect or other qualified design professional should be consulted for complex applications.

Product selection is relative to the desired application and benefits from establishing anticipated flow into, through and out of a proposed drainage system configuration. Selection considerations include: bundle sizing and storage volume, the presence or absence of pipe, pipe size and location within the bundle, and arrangement of bundles. Design factors may include: length of system, watershed area, soil type and permeability, groundwater levels and system discharge opportunities. EZflow<sup>®</sup> drainage storage volumes and pipe discharge rates are listed on the next page.

#### NDS® STORMCHAMBER®: THE MOST COST-EFFECTIVE CHAMBER SOLUTION

NDS<sup>®</sup> StormChambers<sup>®</sup> are subsurface structures that are used to collect, retain and discharge stormwater on commercial and residential sites. They provide a lower cost alternative to drainage pipes for conveyance, with the added benefits of groundwater recharge and water quality enhancement.

## Stronger & Easier to Maintain – High Volume Stormwater Retention

NDS<sup>®</sup> StormChamber<sup>®</sup> is the most cost-effective chamber solution on the market. Thermo-formed from high density weight polyethylene HMWPE material, it offers superior strength that won't crack even under the most extreme environments. Designed for fast installation and simple maintenance, NDS<sup>®</sup> StormChamber<sup>®</sup> is ideal for roadways, parking lots and fields and can stack, allowing for deeper installation and a smaller footprint.

#### Key Benefits:

#### Strong, Flexible & Durable

- Meets H-20 standards
- Up to 16' cover when deep installs are required for the 34". Up to 12' for the 44"
- 100-Year Life Expectancy
- · Withstands the most extreme environments
- Material bends instead of breaks, giving it a brittleness temperature of -107° F vs. industry average of -2° F

#### Fast Installation

- Built-in end walls
- · No header pipe manifold system required
- Flexible design
- Lowest installed cost

#### Simple Maintenance

- Differentiated and centralized sediment control
- SedimenTrap<sup>™</sup> gathers sediments and other pollutants in one place for quick, easy and inexpensive removal by vacuum truck

#### Stacks

- 34" Chambers: Capable of 3-layer stacking
- 44" Chambers: Contact NDS DesignWorx for any projects that may need stacking
- We offer expert site-specific design guidance based on 20 years of successful completion of projects

#### FLO-WELL®: A BETTER DRY WELL

With the Flo-Well<sup>®</sup>, water can now be infiltrated into the subsoil rapidly and easily. Unlike competitive systems, there is no need for piping systems to transport stormwater to a far-off discharge point, large heavy equipment, considerable excavation of current landscaped areas, nor large labor costs that those systems incur. With Flo-Well, water infiltration is now easier than ever.

#### Options

DRAINAGE

Larger 9" or 12" grates can be added to Flo-Well to manage surface water.	ldeal as a stand-alone drain:	ldeal as a stand-alone reservoir:
This option is ideal for draining: Golf course areas prone to puddling Playground areas under slides and swings Outdoor drinking fountain runoff Outdoor showers at beaches Wash-down areas	Disturbs only 4 square feet of turf to install Requires less than 10 cubic feet of soil removed to bury Measures only 24" in diameter by 28.75" high Weighs only 22 pounds Holds over 48 gallons. Or, connect to existing system for increased drainage capabilities	Collect and hold rainwater for lawn and garden irrigation (used with a pump connected to a garden hose) Connect Flo-Well to rain gutters using a catch basin & grate below each downspout (see drawing) Ideal solution for arid areas impacted by drought Reservoir for pond and waterfall recirculation pumps

#### Stackable & Expandable

Flo-Well<sup>®</sup> can be used individually, connected in series or in any array, and can be stacked up to 4 units high (with center support pipe).

#### Applications

For gutters and downspouts

Install with sump pumps

Eliminates puddles

Backwash tank

NDS catch basins and grates collect surface water while minimizing the amount of debris entering the system

Available in a range of sizes from 6" round to 24" square, and with various grating and filter options for commercial and residential systems.

## NDS Drainage Solutions

NDS offers a complete line of catch basins and grates for residential and commercial stormwater management solutions. NDS catch basins have sump areas that collect debris and prevent clogging of the pipeline, and grates are available in a variety of patterns and colors to blend in with surrounding surfaces. Depending on the size of the round, square, or atrium grates, they may fit directly into a riser of pipe, sewer and drain fitting, or our catch basins.

#### Spee-D<sup>®</sup> Basins

Use our compact 6" round Spee-D Basins with grates to collect runoff water while its sump area collects debris and prevents clogging. Also use Spee-D Basins with 6" Pop-Up Emitters to provide a point of discharge or overflow in a drainage system.

#### **POP-UP DRAINAGE EMITTERS**

The Pop-up Drainage Emitter is an easy, safe and efficient solution that allows water to be diverted and released to water-safe areas away from structures, erosion-prone landscapes and poor drainage areas.

Pop-up Drainage Emitters allow water captured by grates, catch basins, channel drains, Flo-Well, EZflow, downspouts and roof gutter systems to flow through drainage pipe and away from structural foundations to safe or useful areas. For example, water can be routed from a low area next to a foundation to a water-safe area in the landscape, or a curbside drainage system where allowed. The emitter opens under minimal hydrostatic pressure from water through upstream drainage pipes; the emitter closes as flow diminishes. The special patented design allows the Emitter to open with even the smallest flows. Since the Emitter is closed during dry weather, debris and rodents cannot enter the drain pipes. Spring automatically retracts - closes and prevents damage from lawn mowers. It's flat profile blends discreetly into the surrounding landscapes.

#### 3" & 4" Pop-up Drainage Emitter

Note: See Fittings section (pages 170-189) for additional fitting options.

NDS offers a variety of grates in sizes, patterns, colors and design options to fit all products and enhance any landscape.

#### Brass & Chrome Grates

### Strong - Practical - Functional

Our solid cast brass grates are secured to a PVC collar with solid brass screws for aesthetics and reliability. The PVC collar can be solvent welded into sewer and drain fittings or pipe where permanent, anti-theft installation is desired. The grate can still be removed for easy cleanout.

- A unique mix of beauty and function
- Recommended for highly-visible entry areas in hotels, malls, office buildings, country clubs and estates
- Exceptional construction and fine finish also make these grates ideal for deck areas, walkways, swimming pools and spas

### Materials & Standards

- Made with the highest-quality solid brass
- Brushed Satin and Polished Chrome finishes are protected by a clear plastic film that prevents damage to the finish during shipping and installation

### Decorative Grates

Designed to meet today's demand for products that are as beautiful as they are functional. NDS decorative grates feature consumer-tested designs and offer a range of colors and materials ideal for any application or setting.

### Catch Basin Plastic & Metal Decorative Grates

Fits 12" Catch Basins. Available in Botanical and Wave designs, in multiple colors or in cast iron. Plastic grates are "T-top" and overlap basin edge. Iron grates sit flush.

## **CHANNEL AND TRENCH DRAINS**

### Channel & Trench Drain Product Line-up

**NDS Channel and Trench Drain Systems provide durable and proven solutions** for sheet-flow drainage in applications ranging from light foot traffic to heavy vehicular traffic.

#### Durable

Designed for maximum durability, drainage, and performance NDS Channel and Trench Drains are a proven alternative to traditional concrete drains. UV inhibitors in the plastic grate, channel and component parts prevent fading and cracking from the sun. All plastic grate and channel components are **chemically resistant**, **rustproof**, **and maintenance-free**.

#### Simple

NDS Plastic Channel and Trench Drains are light weight and easy to install. Grates are removable for easy clean out and replacement. Grates may be held in place with screws or hold-down clips. A complete line of accessories is available for each Channel and Trench Drain System. Our "Profile Series" of channel drains connect like PVC pipe. Our modular "Pro Series" injection-molded channel has mechanical interlocking joints. Our "Dura Slope" Trench Drain System is injection-molded, modular, has mechanical interlocking joints and a built-in slope. All NDS Channel and Trench Drain Systems easily connect to sewer and drain pipes and fittings or Sch. 40 pipes and fittings.

#### Versatile

To blend with surrounding surfaces, our plastic Channel Grates are available in six colors, some with decoartive options, as well as solid brass for the Mini Channel. Cast iron and rolled steel grates are available for the Dura Slope and Pro Series Channel. A ductile iron frame is also available. NDS Channel and Trench Drains also offer a choice of outletting locations; bottom, end and side options available.

#### Efficient

Channel and Trench Drains eliminate the need for grading a deck surface to a low area. Instead, the deck is gradually sloped in one direction or plane, and the channel drain acts as a perimeter drain at the edge of the slope to receive sheet-flow runoff. Channel and Trench Drain Systems provide more overall open surface area than conventional area grates.

#### **Recommended Applications**

- Driveways
- Tennis Courts
- Parking Lots
- Sidewalks

- Warehouses
- Patios
- Swimming Pools & SpasSports Facilities
- Washdown Areas
- Nurseries & Greenhouses
- Running Tracks
- Manufacturing Facilities
- Loading Docks
- Plazas
- CourtyardsLandings

### See capacity recommendations for channel & trench drains, pages 79 & 87.

ł

#### Details

Unique patented flying buttress design provides load-bearing support from both sides as well as underneath.

Available in three sizes: Spee-D<sup>®</sup> for driveways, large decks and commercial areas; Mini for landscapes, pools or decks; and Micro for residential pools and spas.

Unique flanges on the bottom of the channel provide an anchoring lip for straight installation and prevents floating.

#### Materials and Standards

- Only channels made of PVC can be cut to any length and solvent-welded like PVC pipe.
- rates available in six colors with decorative options see individual products for details.
- Mini Channel Grate also available in solid brass.
- · Channel system offers choice of bottom, end or side outlets.
- · Concrete is not required under some channels for light vehicular applications. Standards vary per product.

#### Mini and Spee-D<sup>®</sup> Channel System Components

- 1. Channel
- 2. Grate
- 3. Coupling
- 4. End Cap or End Outlet
- 5. Channel Bottom Outlet
- 6. Sewer and Drain Fitting
- 7. Drain Pipe

### Slim Channel System Components

- 1. Robust extruded PVC channel available in 6-ft and 9-ft lengths
- Anchor clips help secure the channel to a prepared base or suspend it with rebar
- Attractive grate designs enhance any landscape and have high flow capacity for superior drainage
- 4. Couplers provide a secure channel-to-channel connection
- 5. End caps have a convenient KNockout for outletting to 1.5-in SCH 40 pipe
- 6. Convenient bottom outlets can be installed anywhere along the channel for 1.5-in SCH 40 pipe connections

### Micro Channel<sup>™</sup> Drains

Excellent performance at lowest possible cost. Designed for residential applications including swimming pools, spas and patios. Unique design features grate openings parallel to channel length and recessed grate for strength and effective runoff capture.

#### Profile Channel Paver Installation

NDS Profile Channel Systems and grates are dimensionally compatible with standard 2-3/8" clay and concrete paving systems. Both decorative and standard grate options make Profile Channel an ideal choice for drainage on paver pool decks, patios, plazas, courtyards and parking courts.

400-10MTL

### Spee-D<sup>®</sup> Channel Drains

Ideal for commercial as well as residential applications. Effective in everything from patios to light vehicular traffic areas.

NDS Pro Series is a lightweight channel drain system with interlocking joints and a modular design, so systems are flexible and connections are made quickly and easily.

Load Rated: Up to NDS Class C with appropriate grate. For Residential and Commercial applications.

The NDS Pro Series modular design offers flexibility as each section of channel can be snapped together for longer runs or divided down to lengths as short as 4" for smaller, interlocking sections.

Lightweight parts connect easily to sewer and drain pipe and fittings or Sch 40 pipe and fittings, and side and bottom outlets can be connected anywhere along the channel run.

- Channel-to-channel clips for reduced motion during installation
- Rebar clips instead of lower mount clips for an easier install
- Side ribs for increased strength
- Lay-flat design stablizes channel during installation
- Thicker channel walls for additional strength

All this, and the channel still fits easily with all grates and end connectors.

#### Details

- Create a channel as long as you need, or reduce to lengths as short as 4" for smaller, interlocking sections.
- End cap/Knockout end and outlet fitting simplify assembly and installation.
- Flexible and easy: side and bottom outlets can be inserted at any location along the channel run.
- Available in four widths: 3", 5", 8" and 12"
- Available in two depths: deep for heavy flows, shallow for slabs or where little fall depth is available.
- Modular design comes in 1/2 meter (19 11/16") and 1 meter (39 3/8") pieces with interlocking end joints.
- Joints eliminate couplings and are specially designed to withstand concrete expansion and contraction.

#### Materials & Standards

- Polypropylene (3" & 5" channels) and polyvinyl chloride
   (8" & 12" channels) create a structurally-compact, water-tight channel.
- All parts contain UV inhibitors to prevent fading and cracking.

#### Load Recommendations

- Pedestrian Grates offer heel-proof pattern.
- Polyolefin Light Vehicular Grate for use in areas with passenger vehicles and light trucks with speeds less than 20 MPH.
- Load Star or Ductile Channel Grates for heavy-duty traffic.
- See individual products for details.

#### Pre-Assembled Channel Drain Systems

Our Modular Pro Series channel drains also come in pre-assembled kits to decrease installation time. They act as perimeter drains, quickly removing water from hardscapes and directing it away from building structures.

The 3" and 5" wide pre-assembled channel drain kits include a one-meter (39-3/8") channel drain and grate, end outlet, and end cap. A bottom outlet is built into each channel section. This allows for easy ordering and less inventorying, as everything is included under one part number.

Our unique Pro Series interlocking channel design allows each channel to securely lock to the next for a secure, tight fit, with no couplings required. The pre-assembled Pro Series channel drains are a great solution for your drainage needs.

**CHANNEL & TRENCH DRAINS** 

# **NDS**

#### **DURA SLOPE<sup>TM</sup> TRENCH DRAIN** – PRE-SLOPED (PATENTED)

NDS Dura Slope<sup>™</sup> is a high-quality quality, dependable, best-in-class trench drain system ideal for a variety of drainage solutions, including driveways, parking areas, warehouses, loading docks, pools, wash down areas and other areas for the interception and collection of surface runoff. Dura Slope<sup>™</sup> pre-sloped and neutral trench drain system provides a solution for residential, commercial, industrial and municipal drainage needs.

The NDS Dura Slope<sup>™</sup> trench drain system consists of 33 channel sections; 24 pre-sloped sections with 0.7% built in slope and 9 neutral sections. The system also has a catch basin assembly. All Dura Slope<sup>™</sup> channel sections are 48" long, grip #3 and #4 rebar and support 6" wide grates. Dura Slope<sup>™</sup> channel sections are also available in depths from 4" to 12".

The sloped channel sections enable the Dura Slope<sup>™</sup> system to extend to a length of 96 feet with continuous slope. The neutral channel sections can be used for non-sloped system runs or can be used in conjunction with the pre-sloped channel sections for an extended system run of 132 feet. By incorporating central collection using the catch basin assembly, the Dura Slope<sup>™</sup> trench drain system can be extended up to 266 feet. The ProFit<sup>™</sup> locking system maintains structural integrity during installation, and is a locking device and support for the grates. Each channel section ships with ProFit<sup>™</sup>, Blank Grate Inserts and grate screws installed.

#### Details

- Lightweight 4 ft. modular sections
- Easier handling and installation
- Lower freight costs
- 2" radius bottom minimizes debris build-up
- Polyethylene material
- Durable and inexpensive
- Less breakage versus concrete

- High chemical resistance
- Bottom outlet on each channel section
- System versatility
- Requires fewer accessories
- 0.7% built-in slope
- Maintains optimum flow rates throughout system

#### **DURA SLOPE<sup>TM</sup> TRENCH DRAIN** – PRE-SLOPED (PATENTED)

### Product Features & Benefits

LeveLoc<sup>™</sup> re-bar supports with integral protruding knob • Levels channel and grips re-bar • Requires fewer accessories

#### ProFit<sup>™</sup> locking system

- Locks grate to integral frame
- Supports product in shipping and installation (included)

#### DURA SLOPETM TRENCH DRAIN - PRE-SLOPED

## In-Line Catch Basin

The NDS Dura Slope™ in-line catch basin is designed to fit all depth ranges of the Dura Slope™ trench drain sections. Catch basin inlets are designed to be sized as required to accept the Dura Slope™ trench drain section. The Dura Slope™ catch basin is 2 feet long and 2 feet deep with an outlet on both sides of the basin. One Universal Adapter Plug, one blank grate insert and two grate screws are included with each Dura Slope™ in-line catch basin. The NDS universal basin outlets are used to adapt the catch basin to 3", 4", 6" and 8" pipe.

## DURA SLOPE™ TRENCH DRAIN - PRE-SLOPED

## Trash Bucket

Dura Slope<sup>™</sup> Trash Bucket is made to fit inside the Dura Slope<sup>™</sup> Catch Basin (part number DS-340). It has a handle for easy removal to clean leaves and debris; it requires removal of the grate. Made of zinc plated steel, it is durable to climatic conditions. The Trash Bucket is not intended for use with any of the Dura Slope<sup>™</sup> Channels. *Note: DS-240 Trash Bucket is not for use with the DS-200H Ductile Iron Frame.*

## Ductile Iron Frame

Dura Slope Ductile Iron Frame provides a Class D load rating of 326-575 psi and is suitable for heavy-duty hard tire equipment at speeds less than 20 mph. The DS-200H Ductile Iron Frame is recommended for use with pneumatic tire traffic such as fork lifts. The ductile iron frame can be used with the cast and ductile iron grates. *Note:* DS-123 screws must be ordered to secure frame to the channel.

Part No.	Description	Color	Pkg. Qty.	Wt. Ea. (Ibs.)	Product Class
DS-200H	Dura Slope™ Ductile Iron Frame	Black	2 ft.	7.50	25DS
	Use with Dura Slope Drains (page 72), Dura Slope Catch Basins (page 74). To be used with DS-231 or DS-232 gra New Feature: 1/4" Brass Nuts to secure channel inserted. (see page 79). ADA Compliant/Heel-proof when used with		32 grates.		

## DURA SLOPE™ TRENCH DRAIN - PRE-SLOPED

## Radius Coupling & Grates

## Patent Pending

Designed specifically for draining 400-meter running tracks, Dura Slope<sup>™</sup> Radius Couplings allow 3 degrees of deflection between trench drain sections, making an adjustable radius easily achievable for standard tracks and other curving applications.

## Details

- 80'-120' radius
- Heavy-duty HDPE trench drain
- No Special tools required components snap into place
- Four depths available
- Grate options: standard & slotted
- Flexible radius coupling (patent pending)

## LOAD RECOMMENDATION GUIDE

## NDS Class A

- Loads of 1-60 psi.
- · Recommended for pedestrians, bicycles and wheelchair traffic.

## NDS Class B

- Loads of 61-175 psi.
- · Recommended for medium-duty pneumatic tire traffic, autos and light trucks at speeds less than 20 m.p.h.

## NDS Class C

- Loads of 176-325 psi.
- Recommended for heavy-duty pneumatic tire forklifts and tractor-trailers at speeds less than 20 m.p.h., H-20 rated.

## NDS Class D

- Loads of 326-575 psi.
- Recommended for heavy-duty hard tire forklifts at speeds less than 20 m.p.h., H-20 rated.
- Notes: Some installations may require a concrete collar to meet load rating. Load ratings are based on encasing product in concrete. Product must be installed using NDS instructions.

Cast iron grates will oxidize over time and rust, forming an iron-oxide patina. The iron-oxide layer begins red-orange in color and ages to a deep, rich brown. This patina is tightly adhered and protects the iron beneath it from further oxidation. Iron grates with a rust patina are structurally sound and will last for decades.

## Visit ndspro.com for complete installation specifications, guidelines & details.

## A Heavyweight When it Comes to Features

FILCOTEN<sup>®</sup> by NDS<sup>®</sup> combines smart engineering and smart materials to provide a superior trench drain suitable for handling a high load capacity. Combining the features of a stable concrete channel with the strength, durability and environmental-friendliness of fiber-reinforced concrete, FILCOTEN<sup>®</sup> by NDS<sup>®</sup> is the ideal choice for a wide variety of sites and applications.

## Applications

Because FILCOTEN<sup>®</sup> by NDS<sup>®</sup> can handle a high load capacity, it is especially suitable for installation in industrial areas such as factories, garages and parking lots. With its sleek design it can easily be used in public places like railway stations, and pedestrian or residential areas.reinforced concrete, FILCOTEN<sup>®</sup> by NDS<sup>®</sup> is the ideal choice for a wide variety of sites and applications.

## Product Features & Benefits

- · Temperature, frost and UV resistant. Less contraction and expansion and longer product life.
- · Product impact stability. Less susceptible to cracking and breaking during transport and installation.

Vertical outlet

Every channel

vertical outlet

body has a

possibility

on every channel.

- 100% recyclable/0% harmful substances. Sustainable solution without VOCs or heavy-metal residue that can leach into the ground. Qualifies for LEED credits.
- Non-flammable. Manufactured without resins, FILCOTEN® is rated A1, non-combustible.
- Monolithic adhesion. Free from de-molding agents, FILCOTEN® bonds securely with the surrounding concrete.

**Fast and secure fix-connection snap-on-anchoring system.** — The intelligent fix-connection uses an amazingly simple four-point, quick-release, integral design to securely hold the grate in place.

Engineered channel interior. The particularly smooth inner surface of FILCOTEN® by NDS® channels achieves the best possible flow characteristics and self-cleaning effect. Engineered for stability. Four antisliding lugs secure the grate against any longitudinal shifting and provides additional safety.

Designed with security in mind. Anti-vandal locking devices are available to ensure grates are only removed by authorized personnel. Four locking devices per channel section are recommended.

Sealant groove. Sealant groove for waterproof installation.

#### Engineered

channel exterior. The anchoring ribs have been specially designed to support the channel and increase the exposed surface area, providing far better adhesion to the surrounding concrete.

Galvanized steel rails.

The special design of the galvanized steel rails allows for secure grate locking with the fix-connection selflocking system.

Notes: Some installations may require a concrete collar to meet load rating. Load ratings are based on encasing product in concrete. Product must be installed using NDS instructions.

Cast iron grates will oxidize over time and rust, forming an iron-oxide patina. The iron-oxide layer begins red-orange in color and ages to a deep, rich brown. This patina is tightly adhered and protects the iron beneath it from further oxidation. Iron grates with a rust patina are structurally sound and will last for decades.

Visit **ndspro.com** for complete installation specifications, guidelines & details.

## **NOTES**

# **PERMEABLE PAVERS**

NDS Permeable Pavers provide an alternative solution to traditional paving methods. Creating a strong grass or gravel surface that can support heavy vehicles, they maintain permeable surface areas, eliminating or reducing stormwater runoff.

## Benefits

**Greatest Compressive Strength\*.** Offering a high load-bearing capacity, NDS Permeable Pavers feature hexagonal cells that connect together to form a flexible grid system capable of handling significant structural loads.

**Easy Installation.** EZ Roll<sup>™</sup> products come in large rolls that are easily placed and clipped together. Tufftrack<sup>™</sup> features an integrated easy to assemble clip, that greatly reduces installation time.

**Reduced Maintenance.** Less expensive to maintain over time than traditional hardscaping and reduces demands put on landscape drainage systems.

Environmentally Friendly. NDS Permeable Pavers contribute to LEED credits and are made of up to100% recycled plastic.

\*Compare the strength of NDS Permeable Pavers to the competition.

## **TUFFTRACK<sup>™</sup> GRASS PAVER**

Tufftrack<sup>™</sup> Grass Pavers are the strongest paver on the market that works for both grass and gravel applications. Manufactured in rigid 24<sup>"</sup> square panels it offers maximum strength and stabilization for support of heavy vehicles like fire trucks.

Tufftrack<sup>™</sup> Grass Pavers are 24" x 24" rigid panels featuring a clip fastener designed for fast installation that easily connects without extra pieces or tools. The Tufftrack Grass Paver has a combined series of 120 nested hexagonal cells per paver cell with 12 connecting clips. This unique combination provides superior stability and durability.

## **Ideal Applications**

- Fire lanes
- Emergency vehicle access roads
- Truck maintenance and equipment yards
- Truck & cart wash-down areas
- RV & boat access and parking
- Residential driveways

- Parking lots
- Overflow parking lots

## Specifications

**Tufftrack<sup>™</sup> is available in:** 24" x 24" panels, 1.5" thick

Empty cells have a compressive strength of

## 86,563 psf

Cells filled with wet soil have a compressive strength of 400,000 psf

Product ships in 24 in. squares for easy layout

Unique tongue & groove clips are easier to install

	Part No.	Description	Color	Pkg. Qty./ Pallet Qty.	Wt. Ea. Lbs.	Product Class

## EZ ROLL™ & HONOR ROLL™ GRASS PAVERS

**EZ Roll™ Grass Pavers** feature hexagonal cells that protect the root zone and prevent soil compaction, allowing healthy grass to thrive in areas that would traditionally have impervious hardscaping installed.

EZ Roll<sup>™</sup> Grass Pavers are honeycombed rolled grass pavers that are comprised of 24" x 24" x 1" panels. The product is made of up to 100% recycled HDPE material with UV inhibitors. Panels are available in pre-assembled rolls, and multiple panels and rolls easily connect together with a series of locking joints. EZ Roll Grass Pavers have an ultimate compression load rating of 53,683 psf "empty."

## **Ideal Applications**

- Golf cart paths
- Residential driveways
- Parking lots

• Emergency vehicle or service access roads – Also an effective solution for erosion control on slopes and in swales

Honor Roll<sup>™</sup> Pavers are ideal for long, linear applications next to curbs, medians.

## Specifications

#### EZ Roll™ Grass Paver

3.96 ft. x 24 ft. rolls – 95.01 square feet total

3.96 ft. x 152 ft. rolls – 601.6 square feet total

(150 ft. +/- 2 ft. on the length and 3.96 ft. +/- 1/2 in. for width using 76 panel pairs total)

#### Honor Roll™

13 in. x 150 ft. rolls – 158.3 square feet total 18 in. x 150 ft. rolls – 226.5 square feet total

Empty cells have a compressive strength of

## 53,683 psf

Cells filled with wet soil have a compressive strength of 400,000 psf

Product ships in large rolls for easy rollout

Easy to connect locking tabs on sides and ends

\*MT0 3-4 weeks

## **EZ ROLL™ GRAVEL PAVERS**

**EZ Roll™ Gravel Pavers** preserve permeability and help maintain the look and functionality of a gravel road. Made with 100% recycled materials, they also minimize surface water runoff and present an attractive and sustainable alternative to traditional concrete or asphalt.

NDS EZ Roll<sup>TM</sup> Gravel Pavers are a high quality injection molded, plastic rolled gravel paver structure of linked and nested honeycomb cells. The product is made from up to 100% recycled HPDE plastic with UV inhibitors. Pavers come in pre-assembled rolls, and a lateral snap lock latching system securely connects paver panels together to create an integral paver mat. Pavers must have an ultimate compression load rating of 53,683 psf (empty).

## Ideal Applications

- Golf cart paths
- Service roads
- Jogging tracks
- Bike paths

- RV & boat access & parking
- Residential driveways
- Parking lots
- · Roadway shoulders

- Firelanes
- Emergency vehicle access roads
- Truck maintenance and equipment yards
- EAffective solution for erosion control on slopes & in swales

## Specifications

A continuous piece of geotextile fabric prevents migration of base and infill materials yet is porous to allow for the filtration of stormwater runoff.

**Available in four colors** for design flexibility. Crushed or decomposed granite, limestone and pea gravel are just some of the fill material options that work well with EZ Roll<sup>™</sup> Gravel.

#### EZ Roll™ Gravel Paver

## **EZ MARKER™ PARKING DELINEATORS**

Used with EZ Roll<sup>™</sup> Grass and Gravel Pavers, NDS **EZ Marker<sup>™</sup>** is a modular solution to outlining driving lanes, parking stalls, and fire lanes. After the pavers have been unrolled, pinned, and secured, EZ Marker<sup>™</sup> snaps into the appropriate empty cells to outline whatever pattern necessary to properly direct vehicular traffic.

EZ Marker<sup>™</sup> Parking Delineators increase safety and organization by strategically directing parking lot traffic. Delineators are a great way to guide motorists around hazards and to their final parking destination. Used in conjunction with EZ Roll<sup>™</sup> Grass and Gravel Permeable Pavers they provide a simple and effective solution for managing parking lot traffic. EZ Marker<sup>™</sup> is durable, tamper-resistant and built to last. Available in various colors to suit any traffic need including grass or gravel parking and fire line access.

## Specifications

- 2.7" hexagonal shape
- 0.40" profile above paver grade
- Molded polypropylene, impact copolymer

- 300 PSI class "C" compressive strength
- Easy clip-in installation
- Self-cleaning: Raised dome design prevents debris from sticking

# LANDSCAPE

## **ROOT BARRIER PANELS**

Root barrier products direct root growth from shrubs and trees downward, dramatically decreasing the roots' potential to clash with and penetrate nearby hardscapes, walls, or building foundations. The use of NDS root barriers for residential and non-residential landscapes protects many communities and homeowners against the high cost of reparations due to cracks in foundations and buckled sidewalks and driveways.

## Modular EP Series Root Barrier Panels

EP Series Root Barrier Panels are made from injection molded High Impact Polypropylene (HIPP) with a unique factory installed joiner strip that eases installation. EP Series Panels include a "T" top edge to prevent root overgrowth and an Anchor Lock<sup>™</sup> external flange at the base to lock panels in the ground. Suitable for all planting installations, EP Series Root Barrier Panels are available in 12", 18", 24" and 36" depths.

# LANDSCAPE

## Specifications

EP Series Root Barrier Panels by NDS include factory installed independent joiner strips. Each Barrier is a minimum of 0.090 inches thick and is made of up to 50% post consumer High Impact Polypropylene (HIPP) with U.V. inhibitors to ensure longevity. Barrier Panels have 1/2" raised vertical ribs running perpendicular to the panel and are 6" on center. All EP Series Panels feature a 3/8" wide "T" top edge and an external ground anchoring base flange that is 1/8" in width.

Part No.	Description	Color	Pkg. Qty.	Wt. Ea. Lbs.	Product Class
EP-1250	12" x 24" Root Barrier Panel	Black	25	1.80	50LP
EP-1850	18" x 24" Root Barrier Panel	Black	25	1.56	50LP
EP-2450	24" x 24" Root Barrier Panel	Black	25	2.12	50LP
EP-3650	36" x 24" Root Barrier Panel	Black	25	3.20	50LP
Includes 1 Jo	iner Strip per panel				

## **Recommended Installations**

Surround Application:	Linear/Root Pruning Application:
Panels placed around root ball, at a sufficient distance to allow proper backfill of materials.	Panels placed directly adjacent to the hardscape being protected.

## **ROOT BARRIER PANELS**

## Root Barrier Sheet Material

Manufactured from durable HDPE, Root Barrier Sheet Material creates a water and root barrier to prevent costly damage to pavements, roads, and building foundations caused by water and roots. The 20-foot-long sheets of material are ideal for linear style planting applications, and are equally suited for individual tree planting use. Root Barrier Sheet Material is available in 12", 18", and 24" depths to meet a variety of applications.

- A Finished Grade
- B 3"- 4" of 3/4" Gravel
- C Amended Soil
- D Sheet Material

## Specifications

Root Barrier Sheet Material by NDS is manufactured from up to 50% recycled HDPE with U.V. inhibitors with a thickness of 0.040-0.060". Barriers feature vertically integrated and flared molded 90° root-deflecting ribs that protrude 1/2" from wall and are placed 6-8" apart. A root impervious molded end provides easy assembly using staples or a sealant design to bind to HDPE (a dual-sided solvent-based tape).

ACOR	Part No.	Description	Color	Pkg. Qty.	Wt. Ea. Lbs.	Product Class
	SM-1220	12" x 20 ft. Roll	Black	1	10.00	50LP
	SM-1820	18" x 20 ft. Roll	Black	1	14.00	50LP
	SM-2420	24" x 20 ft. Roll	Black	1	18.00	50LP
20 <sup>®</sup> rolls	SM-3620	36" x 20 ft. Roll	Black	1	22.00	50LP

## **Recommended Installations**

Surround Application:	Linear/Root Pruning Application:
Cut desired length of molded roll material. Connect the ends by overlapping two 6" sections with the leading rib cut directly down the middle. If using a sealant to seal the ends, utilize a dual-sided solvent-based tape (like that sold by Tuff Industries, Inc.). Install by placing the Sheet Material around root ball at a sufficient distance to allow proper backfill – the vertical integrated root-deflecting ribs should always be facing the root ball.	Cut desired length of molded roll material and install directly adjacent to hardscape being protected

## **ROOT BARRIER PLANTERS**

Pre-molded, one piece, tapered root control planter made of Structural Foam High Impact Polyethylene (SFHIPP) for superior strength. The ribbed interior wall design guides tree roots down and out of the flanged base. Advantages include the elimination of measuring, cutting, gluing or assembly of panels. Installation is further simplified in that units fit into a 30" augured hole.

- A Finished Grade
- **B** 3"- 4" of 3/4" Gravel
- C Amended Soil
- D Sheet Material

## Specifications

Root Barrier Planter by NDS has a top diameter of 22", a bottom diameter of 30", a height of 18" and a wall thickness of 0.250". Planter is one piece and molded of up to 505 post consumer Structural Foam High Impact Polyethylene (SFHIPP) material with U.V. inhibitors. Root Barrier Planter has a 3/4" inward facing top edge, a 1" external facing ground anchoring base flange with 1/2" high raised vertical ribs a  $\pm$  6" intervals on the interior wall.

## Recommended Installations

Patio Trees:		Street Tree Use:
Root Barrier Planter is ideal f exceed 14" in diameter at ma	or a 15 gallon tree or a 16" root ball whose trunk caliper will not sturity.	Root Barrier Planter is the preferred product for use in city sidewalk cutouts or where trees are completely surrounded by hardscape.

## TRUNK PROTECTOR

Used around the base of trees to prevent damage from lawnmowers, edgers, and string trimmers. The coiled shape allows it to expand with the growth of the tree. It is vented, which permits the tree to breathe and it is notched at the base to accommodate root flare. NDS Trunk Protector is colored to help it blend with the natural shade of the tree. Each unit fits up to a 4" caliper tree; multiple units may be used for larger trees.

## Specifications

Trunk Protector by NDS is made of Low Density linear Polyethylene (LDLPE) material with U.V. inhibitors to insure longevity. Trunk Protector measures 8" high, 12" wide and  $\pm$  0.050" thick. Slotted vents are 1" high by 1/4" wide, creating a serrated lower edge on the bottom row.

## **Backwater Valves**

See list of products on pages 178-179.

## DRIPLINE

- Reduces water use by 30% or more compared to overhead irrigation
- · Complies with new water conservation legislation
- Highly efficient solution for landscape plantings & turfgrass
- · Chemical-free root intrusion protection
- · Longest run lengths in the industry
- Comprehensive offering from NDS Pressure Compensating, Non Pressure Compensating, Check Valve, Multiple Tubing size and color options

## Dura Flo™ CV – One Dripline Tubing for All Applications

The new Dura Flo CV Check Valve Dripline combines the best of Dura Flo PC with a check valve. The combination brings the next level of water conservation to your irrigation project. The dripper features a check valve in combination with anti-siphon capabilities. The check valve prevents low emitter drainage on shut down and the anti-siphon feature eliminates back-siphonage at each emitter. This combination maximizes water efficiency by minimizing water loss and protecting each emitter from clogging and root intrusion. NDS Dura Flo CV is the only product offering this level of efficiency and protection in an all-in-one solution for drip line applications.

### Features

#### Check Valve

- Each emitter opens a 7.5 PSI Longer run lengths lead to reduced material and labor costs
- Each emitter has a 2 PSI check valve that holds back up to 4.5 ft. of elevation Prevents low head drainage & keeps the line full of water between irrigation intervals to provide instant watering when the system turns on for each cycle
- Reduces water waste saves up to 1.39 gallons of water per 100 ft. of tubing

#### Anti-Siphon

- Each dripper is designed with an anti-siphon feature that prevents the suction of debris into the emitter
- Built-in anti-siphon feature eliminates the need for an air/vacuum relief valve

#### Emitter Specifications

- With its unique built-in filtration slits and self-cleaning design, clogging is minimized
- Flat, economical, check valve, pressure compensating, anti-siphon emitter maintains uniform flow rates at a wide range of working pressures and various topographies
- Operating range: 7.5 60 PSI
   Flow rates: 0.4 gph, 0.6 gph, and 0.9 gph
   Dripper spacing: 12", 18" or 24"

#### **Pressure Compensation**

- Conserves up to 70% of the water used by a conventional sprinkler irrigation system
- Distributes water evenly regardless of pressure fluctuations
- Self-flushing emitter eliminates debris from clogging the system during operation

#### Made in USA

Note: Non-PC Emitter.

### Dura Flo™ HD – Heavy Duty for Commercial Applications

Dura Flo<sup>™</sup> HD is the only ¾" Heavy Duty dripline solution designed for commercial applications, offering superior durability vs. traditional PVC systems, with the design flexibility and the water efficiency of drip irrigation. Ideal for sparse uniform planting, Dura Flo<sup>™</sup> HD offers unique spacing configurations.

### Dura Flo<sup>TM</sup> HD emitter flow rate and spacing DURA FLO HD BLACK FLOW: 05 = 1/2 GPH COIL LENGTH: 05 = 500 FT. + 10 = 1.0 GPH +DFHD - BL - XX - XX - 05 EMITTER SPACING: 0 - 0 - 0 - 0 - 0 116 = 3 EMITTERS, 1' BETWEEN EACH EMITTER, 6' BETWEEN CLUSTERS 0 - 0 - 0 - 0 - 0 - 0 114 = 3 EMITTERS, 1' BETWEEN EACH EMITTER, 4' BETWEEN CLUSTERS

CMAP 75-18	3/4" Male Pipe Thread Adaptor (Fits 16mm, 17mm & 18mm Tubing)	Black	25/250	0.375	21DI
SLC 18	Coupling (Fits 16mm, 17mm & 18mm Tubing)	Black	25/250	0.375	21DI
CEP 18	End Plug (Fits 16mm, 17mm & 18mm Tubing)	Black	25/250	0.375	21DI
CEL 18	Elbow (Fits 16mm, 17mm & 18mm Tubing)	Black	25/250	0.375	21DI
CMAH 18	Male Hose Thread Adaptor (Fits 16mm, 17mm & 18mm Tubing)	Black	25/250	0.375	21DI
CSA 18	Swivel Adaptor Female Hose Thread (Fits 16mm, 17mm & 18mm Tubing)	Black	25/250	0.375	21DI
CMAP 5-18	1/2" Male Pipe Thread Adaptor (Fits 16mm, 17mm & 18mm Tubing)	Black	25/250	0.375	21DI
CT 18	Tee (Fits 16mm, 17mm & 18mm Tubing)	Black	25/250	0.375	21DI

### Specifications

- Connect 16mm-18mm 1/2" polyethylene tubing
- Reduces Inventory
- Ideal for Tubing Repairs
- Durable Under the Most Demanding Conditions
- 8-80 PSI
- Accepts tubing OD of .620" to .710" (16mm-18mm)
- Made from UV-resistant, high-quality ABS material
- Reusable design Tubing can be inserted & removed without damaging the fitting

CSELW 710	3/4" FHT Swivel Elbow w/Washer (Fits .704" to .710" OD Tubing)	Blue	25/500	4.4	21DI

### Micro Fittings

Part No.	Description	Color	Bag Qty./ Box Qty.	Wt. per 100 (lbs.)	Product Class
BT 250	Adapter - Barb x Thread (Fits 0.160" ID - 0.170" ID Tubing)	Black	100/2,000	0.1	21DI
Use with A 250 (1/4"	tubing).				
TT 250	Adapter - Thread x Thread (Fits 0.160" ID - 0.170" ID Tubing)	Black	100/2,000	0.1	21DI
Use with A 250 (1/4"	tubing).				
C 125	Connector (Barb x Barb) (Fits 0.125" ID Tubing)	Black	100/5,000	0.1	21DI
Use with A 185 (1/8"	tubing).				
C 250	Connector (Barb x Barb) (Fits 0.160" ID - 0.170" ID Tubing)	Black	100/10,000	0.1	21DI
Use with A 250 (1/4"	tubing).				
T 250	Tee (Barb x Barb x Barb) (Fits 0.160" ID - 0.170" ID Tubing)	Black	100/3,000	0.2	21DI
Use with A 250 (1/4"	tubing).				
EL 250	Elbow (Barb x Barb x Barb) (Fits 0.160" ID - 0.170" ID Tubing)	Black	100/3,000	0.2	21DI
Use with A 250 (1/4"	tubing).				
DBC 250	Double Barbed Connector (Barbed x Barbed) (Fits 0.160" ID - 0.170" ID Tubing)	Black	100/10,000	0.1	21DI
Use with A 250 (1/4"	tubing).				
GP 2	Dual Goof Plug (20/Rack)	Black	100/10,000	0.1	21DI
GP 2B	Bulk Packaged 2-Sided Goof Plug	Black	N/A/10,000	0.1	21DI
Use with A 250 (1/4"	tubing).				
SAJ	Adapter for Hydro-Flo <sup>TM</sup> (page 102), Dial-a-Flo <sup>TM</sup> (page 101), Micro-Flo <sup>TM</sup> Jets (page 103) (1/2" FIPT x 10-32 NFT)	Black	100/400	1.5	21DI
SAT	Adapter for A 220 and A 250 Tubing (page 119) (1/2" FIPT x Barb)	Black	100/400	1.1	21DI
REA	Adapter for 1/4" Barbed Drip Emitter (1/2" FIPT x Emitter Socket dapter)	Black	100/400	1.3	21DI
ST 250	Adapter for Dura-Flo™ JR (page 97) and 1/4" Tubing (page XX) (1/2" FIPT x 1/4" Barbed Swivel Tee)	Black	100/300	1.4	21DI
SEL 250	Adapter for Dura-Flo™ JR (page 97) and 1/4" Tubing (page XX) (1/2" FIPT x 1/4" Barbed Swivel Elbow)	Black	100/300	1.4	21DI
RA 250	Riser Extension Adapter (1/2" FIPT x 1/2" MIPT x 1/4" Barb)	Black	25/100	2.6	21DI

### Compression 1/2" Riser Adapters

RSF 100	1/2" Riser Swivel Filter with 100 Mesh Stainless Steel Screen – Maximum Flow 2 gpm (1/2" MIPT x 1/2" FIPT Swivel)	Black	25/100	3.2	21DI				
RS	1/2" Riser Swivel (1/2" MIPT x 1/2" FIPT Swivel)	Black	25/100	3.0	21DI				
RST 700	1/2" Riser Swivel Tee w/100 Mesh Filter (Fits .680" to .704" OD Tubing i.e. A 700)	Black	40/80	6.3	21DI				
RST 710	1/2" Riser Swivel Tee w/100 Mesh Filter (Fits .704" to .710" OD Tubing i.e. A 710)	Blue	40/80	6.3	21DI				
Products include fi	lter.								
RSTW 600	1/2" Riser Swivel Tee (Fits .610" to .640" OD Tubing)	Green	40/80	5.9	21DI				
RSTW 700	1/2" Riser Swivel Tee (Fits .680" to .704" OD Tubing)	Black	40/80	6.1	21DI				
RSTW 710	1/2" Riser Swivel Tee (Fits .704" to .710" OD Tubing)	Blue	40/80	6.0	21DI				
Products include w	vasher.								
RSEL 600	1/2" Riser Swivel Elbow w/100 Mesh Filter (Fits .610" to .640" OD Tubing)	Green	50/100	5.2	21DI				
RSEL 700	1/2" Riser Swivel Elbow w/100 Mesh Filter (Fits .680" to .704" OD Tubing)	Black	50/100	5.0	21DI				
RSEL 710	1/2" Riser Swivel Elbow w/100 Mesh Filter (Fits .704" to .710" OD Tubing)	Blue	50/100	5.0	21DI				
Products include fi	iter.								
RSELW 500	1/2" Riser Swivel Elbow (Fits .455" to .480" OD Tubing)	Red	50/100	4.8	21DI				
RSELW 600	1/2" Riser Swivel Elbow (Fits .610" to .640" OD Tubing)	Green	50/100	4.8	21DI				
RSELW 700	1/2" Riser Swivel Elbow (Fits .680" to .704" OD Tubing)	Black	50/100	4.8	21DI				
RSELW 710	1/2" Riser Swivel Elbow (Fits .704" to .710" OD Tubing)	Blue	50/100	4.8	21DI				
Products include washer.									

### Automatic Flush Valves

Part No.	Description	Color	Bag Qty./ Box Qty.	Wt. per 100 (lbs.)	Product Class
FVA 600	Automatic Flush Valve – Closes at 7 PSI (Fits .610" to .630" OD Tubing i.e. A 620)	Green	25/500	1.5	21DI
FVA 700	Automatic Flush Valve – Closes at 7 PSI (Fits .680" to .704" OD Tubing i.e. A 700)	Black	25/500	1.4	21DI
FVA 710	Automatic Flush Valve – Closes at 7 PSI (Fits .704" to .710" OD Tubing i.e. A 710)	Blue	25/500	1.4	21DI

### Figure 8 End Enclosures

Part No.	Description	Color	Bag Qty./ Box Qty.	Wt. per 100 (lbs.)	Product Class
F 870	Figure "8" End Plug (Fits .620" OD to .710" OD Tubing)	Black	100/3,000	0.7	21DI
Fits A 620, A 700, A 710 Tubing					
F 890	Figure "8" End Plug (Fits .830" OD to .940" OD Tubing)	Black	100/1,500	1.5	21DI
Fits A 940 Tubing					
TEC	Thin Walled Tape End Closure	Black	100/2,000	1.6	21DI

### Valves

MV 2	5	1/4" Flow Controlling Valve (Barb x Barb) (Fits .160" to .170" ID Tubing i.e. A 250)	Black	100/500	0.4
MVT	25	1/4" Flow Controlling Valve (Thread x Thread) (Fits .160" ID to .300" OD Risers; Use with A 250 Tubing)	Black	100/500	0.4
BV 75	5	3/4" FHT x 3/4" MHT Ball Valve	Black	25/150	3.8
FC 50	00	1/2" Flow Controlling Valve (Fits .455" to .480" OD Tubing i.e. A 455)	Red	25/200	5.8
FC 60	00	1/2" Flow Controlling Valve (Fits .610" to .630" OD Tubing i.e. A 620)	Green	25/200	5.6
FC 70	00	1/2" Flow Controlling Valve (Fits .680" to .704" OD Tubing i.e. A 700)	Black	25/200	5.4
FC 71	10	1/2" Flow Controlling Valve (Fits .704" to .710" OD Tubing i.e. A 710)	Blue	25/200	5.4
Note: I	Not to be	used as a shutoff valve.			
FC 80	00	3/4" Flow Controlling Valve (Fits .830" OD Tubing)	Black	25/125	7.6
FC 90	00	3/4" Flow Controlling Valve (Fits .940" OD Tubing i.e. A 940)	Grey	25/125	7.5

### Air/Vacuum Valves

Part No.	Description	Color	Bag Qty./ Box Qty.		Product Class
AVRV 50	1/2" Air/Vacuum release valve (1/2" MIPT inlet)	Black	25/100	1.6	21DI

### Hole Punches

Part No.	Description	Color	Bag Qty./ Box Qty.	Wt. per 100 (lbs.)	Product Class
HP 100	Hole Punch for 1/8" Fittings. Insert Tool for BT 250, TT 250 Fittings	Blue	10/150	3.8	21DI
HP 125	Hole Punch for PC Plus™, Multi-Flo™, Aqua-Flo™, Dial-a-Flo™, Super-Flo™, Misti-Flo™ and 1/4" Fittings. Insert Tool for BT 250, TT 250 Fittings.	Green	10/150	3.8	21DI
HP 125PR0	Hole Punch for for 1/4" fittings, insert tool for PCP Drippers	Green	1/10	17.4	21DI
HP 240	Hole Punch for Mono-Flo <sup>™</sup> Emitters	Blue	10/50	4.1	21DI
PPT	Punch Pal <sup>™</sup> Tool (Plastic Hole Punch Including Socket for Inerting Jets)	Orange	50/500	0.7	21DI

### **Emitter Access Boxes**

Part No.	Description	Color	Bag Qty./ Box Qty.	Wt. per 100 (lbs.)	Product Class
EB 6	6" Emitter/Bubbler Access Box	Black	24/24	57.7	21DI
EBDS 6	6" Emitter/Bubbler Access Box for Desert Landscaping	Tan	24/24	57.7	21DI
EBRC 6	6" Emitter/Bubbler Access Box for Reclaimed Water	Purple	N/A/24	57.7	21DI

### Tubing Accessories and Miscellaneous

	Part No.	Description	Color	Bag Qty./ Box Qty.	Wt. per 100 (lbs.)	Product Class
<b>U</b> Y	MC 250	1/4" Mounting Clamp (Fits A 220 and A 250 Tubing)	Black	100/4,000	0.2	21DI
	MC 500	3/8" Mounting Clamp (Fits A 455 Tubing)	Black	100/1,500	0.4	21DI
$\bigcirc$	MC 710	1/2" Mounting Clamp (Fits A 620 and A 700 Tubing)	Black	100/1,000	0.6	21DI
	BP 250	Bug Plug for A 220 and A 250	Black	100/5,000	0.1	21DI
	W 75	3/4" Vinyl Washer	Black	100/3,000	0.2	21DI
	CAP 75	3/4" FHT Cap with Washer	Black	100/1,500	1.8	21DI
	SAH	Adapter with Washer (3/4" FHT x 1/4" Barb)	Black	100/500	1.7	21DI
	PHA 75	3/4" FHT Swivel x 3/4" FPT Swivel Adapter	Black	25/300	4.2	21DI
	TNPH	3/4" Transition Nipple (3/4" MHT x 3/4" MPT)	Black	100/500	2.8	21DI

### NOTES

# FLOW MANAGEMENT

NDS<sup>®</sup> Flow Management offers a range of engineered specialty fittings and valves. From expansion repair and compression couplings, to spring, swing check and ball valves, we offer a full line of products for irrigation, plumbing, pool and spa, and industrial applications.

# **BACKWATER VALVES**

See list of products on pages 178-179.

# Technical Data

NDS requires that the local and state plumbing codes be reviewed and understood prior to installing any of NDS Flow Management's products. These codes will provide proper installation procedures.

**1. PVC Material Specification PVC Type I,** Grade I, Cell Class 12454-B meeting requirements of ASTM D-1784-03 is used in the manufacturing of all fittings recommended for use of potable cold water (see chart C for temperature vs. pressure on page 165). Not recommended for use on systems exceeding 100 psi at 120 degrees F.

2. PVC Material Specification PVC Type II, Cell Class NSF14333 of ASTM D-1784 is used in manufacturing of fittings that require more chemical, heat, and impact resistance than PVC I.

**3. CPVC Material Specification CPVC Type IV,** Grade I, Cell Class 23447-B meeting requirements of ASTM D-1784-03 is used in the manufacturing of all fittings recommended for use on potable Hot Water Systems in accordance with ASTM D-2846-73. Not recommended for use on systems that will exceed 100 psi at 180 degrees F.

**4. Buna-N Seals** are in accordance with ASTM D-2000. It is generally resistant to many hydrocarbons, fats, oils, greases, hydraulic fluids and chemicals. It is generally attacked by Ozone, Ketones, Esters, Aldehydes, chlorinated and nitro hydrocarbons. Reference chemical resistance under NBR (Nitrile) Elastomers for specific listings.

**5. EPDM O-Rings** This o-ring material is made of high-quality EPDM (Ethylene Propylene Copolymer) which is in accordance with ASTM D-2000. EPDM has exceptionally good weather aging and ozone resistance, excellent water and chemical resistance, and excellent aging resistance for most applications. EPDM is a polymer where oil and solvent resistance is poor. However, it is fairly good in ketones and alcohols. Reference chemical resistance under EPDM, EPT, or EPR Elastomers for specific listings.

**6. Viton O-Rings** This o-ring material exhibits a broad range of chemical resistance: petroleum oils, silicone, grease, etc. We recommend you refer to a chemical resistance chart for specific applications. Maximum recommended service temperature is 400° F. Viton is a registered trademark of DuPont.

7. Double Seal of standard compression fitting. A compressive action is created as the cap is tightened squeezing the Buna-N seals into the tapered recessed areas of the cap and body. This process creates a highly concentrated pressure at the two "double seal" points, thus providing positive protection against leakage. (See Figure A on page 166)

**8. Acme Thread** General purpose 10 pitch and 5 pitch Acme thread on Compression Cap section eliminates the possibility of cross- threading. This smooth running design prevents binding or galling as is often experienced in standard tapered threads.

9. Springs Series 300 Stainless Steel.

# Information

UPC #6-70686-

## Important

#### Non-shock valves manufactured from PVC Type I material

WATER HAMMER – NDS requires that all PVC plastic piping systems be designed and constructed to AVOID EXCESSIVE WATER HAMMER. Water hammer can cause damage, and failure to pipe, valves, and fittings within the piping system. Not recommended in any shock applications.

NDS DOES NOT RECOMMEND the use of thermoplastic piping products for systems to transport or store compressed air or gases, or the testing of thermoplastic piping systems with compressed air or gases in above and below ground locations. The use of our product in exposed, compressed air or gas systems automatically voids our warranty for such products and its use against our recommendations is entirely the responsibility and liability of the installer. NDS will not accept responsibility for damage or impairment of its products, or other consequential or incidental damages caused by misapplication, incorrect assembly, and/or exposure to harmful substances or conditions. See warranty on inside back cover.

Check valves may be suitable for usage on grinder pump installations, provided the maximum recommended flow velocities through Flow Management plastic valves are not exceeded, the grinder pump system is inspected for proper usage, and on a preventative maintenance schedule. Note that excessive chemical contact and backpressure will cause the check valve gasket to deteriorate at a premature rate. Also, placing the check valve horizontal or at a 45° angle, instead of a vertical position, is recommended. Please follow local code guidelines.

# Clamp-It<sup>™</sup> / Flo-Tap<sup>™</sup> Saddles

CLAMP-IT SADDLE DRILL SIZES		FLO-TAP™ HOT/WET TAP SADDLES			
OUTLET SIZE OVER 2-1/2" PIPE	DRILL SIZE	FOR 3/4" AND 1"	FOR 1-1/2" AND 2"

1" IPS S & FPT	1"	extension. TAP Cuts .750" hole.	To drive cutter use a standard 1/2" ratchet with a 6" extension. TAP Cuts 1.250" hole.		
1-1/4" IPS S & FPT	1-1/4"	Captures Coupon - No pipe chips in water system. CAUTION: Do not tap any PVC pipes with wall			
1-1/2" IPS S & FPT	1-3/8"	thickness exceeding .540" (8"C - 900 SDR 18, CLASS	150). Refer to temperature variation and working		
2" IPS S & FPT	2"	pressure chart above for maximum pressure vs. maximum temperature.			
For 2-1/2" IPS Saddle with a 2" outlet – Drill	Size must be 1-1/2" due to pipe restriction	NOT FOR USE WITH COMPRESSED AIR OR NATURAL GAS LINES.			

# Installation Instructions

NOTE: NDS does not recommend using an FPT (female) PVC fitting with an MPT (male) metal fitting; ASTM F1498. Unless the female PVC fitting is used with a metal reinforcement ring, it may expand beyond its strength around a metal fitting, which can result in cracks and leaks.

# 1. Compression Fittings

Compression cap should be drawn up hand-tight to insure proper alignment and seating of gasket, then tighten 3/4 to 1 turn with a Flo Spanner Wrench or strap wrench. Average torque should be approximately 25 foot-pounds on 1/2" through 2" IPS, and 35 foot-pounds on 2-1/2" and larger IPS. Compression fittings are not for use on compressed air lines or natural gas lines. When installing the Standard Compression Seal fittings the pipe line must be restrained from lateral movement by thorough soil compaction on straight runs and thrust blocking at change of direction or reduction in size. Not for use on pipe lines suspended on hangers.

# 2. Pipe Threads

Use teflon tape on all IPS thread connections. IPS thread connection should be made hand-tight plus 1/2 to 3/4 turn with a wrench.

# 3. Flo-Lock Adapters

For use on polyethylene tube (PE) with wall thickness of SDR-26, Class 160 or greater, PVC pipe, or copper tubing. Not recommended for use on galvanized pipe unless surface is sanded smooth. (See Figure B)

# 4. Solvent Welding

NDS requires that all parts that are to be solvent cemented are clean of any and all foreign materials. Solvent cement manufacturers include installation instructions on the container. It is important to follow correct cementing instructions to avoid problems. Excessive cement or the incorrect type of cement can cause failures in thermoplastic products.

# Pipe Size Legend

# NOTES

FLOW MANAGEMENT

# **FITTINGS & CLAMPS**

Our comprehensive line of sewer and drain fittings includes valves, couplings, and connectors in PVC and styrene. NDS continues its tradition of innovation with the new patent pending Swivel-Fit<sup>™</sup> variable angle fitting that combines two fixed fittings into one adjustable fitting solution.

# **SOLVENT-WELD SEWER & DRAIN FITTINGS**

#### Standards

PVC ASTM D-3034, D-2729

#### Abbreviations

Hub = Hub Socket (receives pipe & Fitting SPT)DWV = Drain, Waste andSpt= Spigot (pipe diameter, connect to fitting Hub)S&D = Sewer and DrainMPT = Male Pipe ThreadPVC = Polyvinyl ChlorideFPT = Female Pipe ThreadHIPS = High-Impact Pol

DWV = Drain, Waste and Vent (Schedule 40 dimensions)
S&D = Sewer and Drain
PVC = Polyvinyl Chloride
HIPS = High-Impact Polystyrene

# One Adjustable Fitting for Any Job

The patent-pending Swivel Fit® Variable Angle Fitting can be set to any angle from 0° to 90°. It is a convenient solution to tackle any job and is easy and less expensive than connecting multiple fixed angle fittings.

# **DIVERTER AND BACKWATER VALVES**

# **Diverter Valve**

Here's the simplest, strongest and most economical diverter valve ever invented for septic tank leach fields. It is made of tough molded plastic that will not shatter, bend, rust or corrode. It is lighter in weight, easier to handle and less expensive to ship.

#### Functional

The diverter valve stem flow may be controlled to individual or multiple fields (up to three) in any combination. With a three-way valve stem, flow may be diverted to any two outlets. To allow flow through all outlets, the valve stem may be removed from the assembly.

#### Easy to Install

Connect 4" plastic sewer and drain pipe to inlets and outlets on the four-way distribution box. (Unwanted outlets may be sealed by installing caps.) The diverter shield which houses the diverter stem may be cut to desired length.

# Gravity Backwater Valve

The NDS gravity flow Backwater Valve is designed to protect low areas or basements from the backflow of waste from street sewers. It is available in 2", 3", 4" and 6" sizes, PVC material. It is a cost-effective and a chemically resistant alternative to cast iron valves.

#### **Backwater Valve**

The quick action flapper allows unrestricted uni-directional flow. Elastomeric gasket in the flapper ensures a watertight seal. Flapper can be easily removed and replaced if required. Threaded access cap is designed for hand tightening. Access cap neoprene gasket provides a positive seal. Valve hub outlets fit 2", 3", 4" or 6" DWV pipe and may be adapted to 2", 3", 4" or 6" sewer and drain pipe with NDS DWV to Sewer & Drain Adapters. Lightweight, easy to install. Horizontal installation required, with arrows on top of the valve hub pointing in the direction of the flow of water. Access riser with cover offers a simple, economical access to the valve for inspection and maintenance. The riser may be cut to the desired length.

# NDS FLEXIBLE COUPLINGS AND CONNECTORS

- Choose the high-quality couplings and connectors that easily adapt to any situation
- Innovative, flexible couplings for sewer, drain, waste and vent piping allow any two pipes to be connected quickly and easily
- · Dimensional flexibility ensures leakproof seals with virtually any pipe material
- Utility and plumbing applications

## Details

- Couplings and connectors fit over the ends of plain-end or spigot pipe to form a positive seal against infiltration and exfiltration in non-pressure environments
- Durable PVC construction allows couplings to flex with normal earth movement
- · Completely unaffected by soil conditions and resistant to chemicals, UV rays and normal sewer gases

# Materials and Standards

- · Flexible couplings are made of elastomeric polyvinyl chloride (PVC) for long-lasting performance and durability
- Bactericides and fungicides are added to PVC for extra protection
- All NDS clamps, including the band and housing, are made from series 300 stainless steel, offering corrosion-resistant, rustproof reliability
- NDS Flexible Couplings have listings from the following code agencies: ICC (International Code Council), CSA (Canadian Standards Association) and IAPMO (International Association of Plumbing and Mechanical Officials)

#### Installation

- Clamps install easily with a screwdriver, 5/16" nut driver or socket to 60 inch-lbs. pounds torque
- All couplings are marked with size and pipe materials that the coupling will connect, eliminating guesswork on the job

# NDS Flexible Coupling Sizing Chart

- All dimensions given in inches and mm.
- Couplings available to connect 1-1/4" to 15" pipe.
- 300 Series stainless steel clamps supplied with all couplings.
- All couplings will fit any pipe type within +/- 5% OD on chart.

FITTINGS & CLAMPS

## NDS FLEXIBLE COUPLING SIZING CHART

## Drain and Trap Connectors

NDS Drain & Trap Connectors are ideal for new installation, alterations and repairs. These connectors offer a quick, low-cost alternative to gluing or soldering and eliminate the need for special tools or threading. Simply place the ends over the pipes and tighten the stainless steel clamps.

<b>S</b>

Part No.	Description	Color	Pkg. Qty.	Wt. Ea. (lbs.)	Product Class
57-125	1-1/4" or 1-1/2" Drain Piping x 1-1/4" or 1-1/2" Drain Piping	Black	180	0.17	45C0

## Large Diameter Couplings

Large Diameter Couplings are available through NDS. The large couplings are engineered for use with all the common pipe material: clay, concrete, cast iron, plastic, fiberglass, ductile iron and asbestos/cement. When ordering please remember to provide the exact O.D. size in inches for both pipes. A difference of 6" between the two pipe O.D. sizes cannot be made. Please call for details 1-800-726-1994.

## **Expansion Joints**

NDS Flexible Expansion Joints have a one-piece design which allows for the thermal contraction and expansion of drain, waste and vent. These couplings are maintenance free and rustproof. They are secured by series 300 stainless steel clamps. NDS expansion joints are made of tough elastomeric polyvinyl chloride (PVC). They are strong and resilient. Available in 2" and 3" sizes.

#### NDS CONNECTORS AND O-RINGS

NDS Connectors for sewer pipe joints and drain waste & vent piping allow several points of seal between most types of sockets, hubs, bells and spigots. NDS Connectors are donut-shaped rings made of tough elastomeric polyvinyl chloride (PVC) and are available in a range of sizes up to 6". They install quickly and easily and offer the dimensional flexibility that ensures leakproof seals. They are also resistant to chemicals, fungus growth and normal sewer gases due to the inert nature and physical properties of the material. NDS O-Rings provide a quick and easy connection between most 4" house pipes and 6" sewer pipes. *NOTE: Connectors may not perform as intended due to improper or insufficient description of the pipes being connected or changes in pipe dimensions or design by the various manufacturers.*

#### Cleanout or Test Caps

NDS Cleanout or Test Caps are designed to fit drain, waste and vent pipe materials. The 1-1/2" thru 4" NDS Caps are designed to fit schedule 40 nominal pipe sizes. The 6" thru 10" NDS Caps are designed to fit SDR 35 nominal pipe sizes. Our caps offer a quick and easy way to cap pipe ends and cleanouts. The reinforced convex face allows the cap to withstand greater pressure for testing and minimize ballooning. They are also low cost and reusable.

### **CONCRETE MANHOLE COVER ADAPTERS**

NDS Concrete Manhole Cover Adapters are made of elastomeric polyvinyl chloride (PVC) and are available for 4", 6", 8", 10", and 12" pipe. Our adapters help eliminate leaks around pipe entering manhole walls and are flexible enough to permit some lateral pipe movement without compromising the integrity of the seal. However, NDS does not warrant this product as a positive water seal due to the many varying factors that can influence the product's effectiveness as a positive seal, such as: field conditions, quality of grout, workmanship and high-ground water tables.

	Part No.	Description	Color	Pkg. Qty.	Wt. Ea. (lbs.)	Product Class

#### NDS FLEXIBLE SADDLES

For superior durability and flexibility, saddle up. A breakthrough in saddle design, the patented NDS Flexible Saddle demonstrates superior flexibility in more than one way. The saddle's elastomeric construction allows a single description to securely fit 6" sewer main pipe diameters and up.The saddle's flexibility eliminates the need for a large inventory of rigid PVC saddles of various descriptions.

NDS Flexible Saddle offers the following product benefits:

- Two configurations, a "Tee" and a "Wye" are available in 4" or 6" inlet descriptions
- · Elastomeric construction provides maximum strength and flexibility
- Saddle design will accommodate polyethylene pipe used in slip lining sewer systems
- Inlet range from SCH-40 down to SDR-35 includes standard weight soil pipe
- Stainless steel series 300 clamps ensure tight seal
- Steel-reinforced edges prevent distortion when torque is applied to clamps
- Durable design and low unit price make the Flexible Saddle economical and environmentally wise
- Available saddle blanket, attached to pipe prior to saddle installation, will mend imperfections and cracks on clay pipe taps

## ACCESS BOXES

NDS<sup>®</sup> valve and meter boxes are proudly manufactured in Lindsay, CA, and span a wide variety of sizes, from 6" round to 17" x 30" rectangular. Available with black, green, purple, gray, and sand covers with designations including irrigation control valve, water, sewer, electric, reclaimed water, cable TV, telephone, and others, all NDS boxes and lids contain UV inhibitors for sustained durability and performance in direct sunlight.

#### NDS<sup>®</sup> PRO-SPEC<sup>™</sup> SERIES VALVE BOXES – NEXT-GENERATION COMMERCIAL GRADE

The NDS Pro-Spec<sup>™</sup> Series line is the next generation of valve boxes, ideal for the specification market. These boxes are engineered with unique corrugated sidewalls that provide added strength to the boxes while reducing material and weight. The Pro-Spec<sup>™</sup> Series boxes are the strongest in the NDS offering, and they also come with reinforced lids.

#### Details

- Corrugated sidewalls provide greater strength
- Specification grade valve boxes for professional applications

#### Materials and Standards

- High-impact, high-density, injection-molded structural foam polyethylene construction with a melt index between 10-12
- Overlapping covers prevent dirt and grass from settling in between body and cover

- Reinforced covers for heavier loads
- Brass nut on boxes for bolt-down capability
- UV inhibitors prevent discoloration and cracking
- 5-year warranty
- Overlapping and drop-in covers available

## NDS® STANDARD SERIES VALVE BOXES

#### Residential/Commercial Grade

NDS valve, meter and access boxes are offered in a wide range of sizes from the 6-inch round valve box to the 17" x 30" rectangular box. They are available with black, green, purple, gray and sand covers with designations including irrigation control valve, water, sewer, electric, reclaimed water, cable TV, telephone and others.

#### Details

- Covers are identified with ICV (Irrigation Control Valve) designation, unless otherwise specified
- · Overlapping covers prevent dirt and grass from settling between body and cover
- The bayonet twist-on cover ensures easy removal on 6-inch and 10-inch round covers
- 6" Snap cover and body available
- The 10-inch round and all rectangular boxes include a brass nut, so bolts may be easily added for lockdown
- UV inhibitors prevent discoloration and deterioration, such as cracking or blistering

#### Materials and Standards

- Overlapping and drop-in covers available
- Available in round, oval, and rectangular
- One-piece molded of polyolefin with a melt index between 10-12
- · UV inhibitors added to aid in preventing discoloration and cracking

#### NDS PRO-SPEC<sup>™</sup> SERIES VALVE BOXES - NEXT-GENERATION COMMERCIAL GRADE

## NDS Pro-Spec<sup>™</sup> 10" Round Corrugated Valve Boxes

**Specifications:** The NDS Pro-Spec<sup>™</sup> 10" round body is tapered and has a minimum wall thickness of 0.250". The cover seat area has 8 structural support ribs on the underside of the seat, each with a minimum thickness of 0.250". The bottom of the body has a 0.500" flange. The 10" round cover has an average thickness of 0.300". The valve box has a 3/8" Brass nut for the bolt-down as a standard feature.

Superior signal transmission versus products made of concrete materials or cast iron.

Lighter weight material eases installation and lowers freight and handling costs.

Designed specifically for the Automatic Meter reading industry, the newest line of AMR boxes builds on the NDS tradition of strength, durability and value. Like our current automatic Meter Reading products, this new line of AMR boxes and covers are injection-molded of polyoefins and contain UV inhibitors to prevent discoloration and cracking.

#### **Bottom Mounts**

- Concealed antennae are completely protected from landscape equipment damage and are less likely to draw attention from vandals
- Exceptional antennae signal transmissions
- Offset cavities eliminate the physical interference between antennae and meter
- Bracket accommodates a majority of the industry antennae

(pre-assembled bracket)

(pre-assembled bracket)

## Top Mounts

- Recess reduces the probability of damage caused by landscape equipment and vandals
- Offset recesses eliminate the physical interference between the antennae and meter
- Recess and holes accommodate most of the industry antennae
- · Compatible with many of the industry Touch Read antennae

Double AMR top mount

#### NDS 14" x 19" AMR Meter Boxes & Covers

**Specifications:** NDS 14" x 19" AMR meter boxes and covers are injection molded of structural foam recycled polyolefin material with a melt index between 10-12. Coloring and UV stabilizers are added, along with processing lubricants when needed. NDS 14" x 19" x 12" body is tapered and has a minimum wall thickness of 0.250". The body has a double wall at the top cover seat area with a minimum thickness of 0.187". The cover seat area has 30 structural support ribs on the underside of the seat, each with a minimum thickness of 3/16". The bottom of the body has a 1" flange. The 14" x 19" cover has a minimum thickness of 0.250".

#### NDS 13" x 20" Jumbo Boxes & AMR Covers

**Specifications:** NDS 13" x 20" meter boxes and AMR covers are injection molded of structural foam recycled polyolefin material with a melt index between 10-12. Coloring and UV stabilizers are added, along with processing lubricants when needed. The 13" x 20" body is tapered and has a minimum wall thickness of 0.250". The body has a double wall at the top cover seat area with a minimum thickness of 0.187". The cover seat has 56 structural support ribs on the underside of the seat, each with a minimum thickness of 1/50". The body has a 1" flange. The 13" x 20" cover has an average thickness of 0.25".

#### NDS D1500 Meter Boxes

**Specifications:** NDS 13" x 20" meter boxes and covers are injection molded of structural foam recycled polyolefin material with a melt index between 10-12. Coloring and UV stabilizers are added, along with processing lubricants when needed. The 13" x 20" body is tapered and has a minimum wall thickness of 0.250". The body has a double wall at the top cover seat area with a minimum thickness of 0.187". The cover seat area has 30 structural support ribs on the underside of the seat, each with a minimum thickness of 1/50". The bottom of the body has a 1" flange. The 13" x 20" cover has an average thickness of 0.250".

## **TERMS AND CONDITIONS OF SALE**

Terms: Standard terms are NET 30 days. All invoices are to be paid in US Currency. Title and risk of loss pass to buyer upon shipment.

**Freight Allowance:** Freight prepaid on orders of \$1250.00 NET or more, with the exception of shipments to HI, Canada, AK, and PR Prepaid freight levels are based on shipments to one location only. It is the responsibility of the customer to determine if his purchase order meets the minimum freight allowance required. NDS reserves the right to select the carrier and point of shipment.

Canada, Hawaii, Puerto Rico & Alaska orders that include EZflow must be a minimum of \$4000 for prepaid freight Terms.

Canada, Puerto Rico & Alaska: Freight prepaid on orders of \$2500.00 (US\$) NET or more.

Hawaii Orders: Freight prepaid on orders of \$3500 NET or more.

Errors & Claims: All claims for shortage in shipment or damaged material must be noted on the "Bill of Lading" and a written request for credit submitted to NDS within 15 days of shipment. NDS responsibility ceases upon delivery to the carrier.

**Returned Goods:** Returned goods will be accepted only after written approval and shipping instructions are received from NDS. A return goods authorization number is required and must be on all cartons, documents, and correspondence. All returns are subject to a 25% restocking charge, freight cost of returned goods (plus "out freight if applicable"). A higher restocking charge may be assessed against any return requiring extraordinary handling costs.

Minimum Order: \$100.00 minimum order net billing.

**Broken Box Charge:** A 25% broken box charge will be added for other than full box quantities. 21DI Drip Components, 25DS Dura Slope Channel and 25FC Filcoten Channel are excluded from this policy.

Limited One Year Warranty: The liabilities of NDS are limited solely and exclusively to replacement as set forth in our standard "Statement of Warranty", alone and do not include any liability for incidental, consequential or other damage of any kind whatsoever, whether any claim is based upon theories of contract, warranty, negligence or tort and without any limitations and do not include shipping charges, labor, installation or any other losses or expenses incurred in operation of any replacement specialty item or fitting. NDS drainage products are designed to be used for exterior surface drainage only.

Limited Lifetime Warranty: NDS warrants to the original owner of its NDS catch basins, grates, channel and Pro Series valve boxes, subject to the conditions set forth in this warranty, that NDS catch basins, grates, channel and Pro Series valve boxes will remain free from manufacturing defects.

All NDS products are guaranteed against defects resulting from faulty workmanship or materials. Claims for labor costs and other expenses required to replace defective products or repair of any damage resulting from the use thereof will not be allowed by NDS. Our liability is limited to replacement of products acknowledged by NDS to be defective.

**Exclusive Warranties and Remedies:** The foregoing remedies are exclusive and are given and accepted in lieu of (I) any and all other warranties, expressED or implied, including without limitation the implied warranties of merchantability and fitness for particular purpose; and (ii) any obligation, liability, right, claim or remedy in contract or tort, whether or not arising from NDS, Inc.'s negligence, actual or imputed. The remedies of customer shall be limited to those provided herein to the exclusion of any and all other remedies including, without limitation, incidental or consequential damages. No agreement varying or extending the foregoing warranties or these limitations will be binding on NDS, Inc., unless such is signed in writing by an authorized officer of NDS, Inc.

The liability of NDS, Inc., hereunder shall be limited to restoring to good working order, provided that NDS, Inc., is not required to restore the product to good working order when such failure is due to causes beyond NDS, Inc.'s control, including but not limited to, acts of God, acts of civil or military authority, priorities, strikes, floods, epidemics, war, riots, and other causes that are beyond the manufacturers control.

These provisions are complete and exclusive statements of all terms and conditions between NDS, Inc., and the consumer. These provisions may not be varied, supplemented, qualified or interpreted by any prior course of dealings, written or oral or by trade usage. No NDS, Inc. agent, officer or employee has authority to make any representation, promise or warranty concerning these provisions.
