Beautiful products that last forever.

For more than a century, Glen-Gery has built a reputation for its high quality building products that meet both innovative design challenges and demanding construction specifications. Glen-Gery, part of Brickworks Limited of Australia, offers the most diverse product portfolio of brick and stone products, which are available in a wide-array of colors, sizes and textures and can be used in both commercial and residential applications.

Driven by industry evolution, Glen-Gery is committed to improving its customer experience and quality assurance through ongoing strategic partnerships and investments. We aim to ensure opportunities for the next generation of brickmakers, continue supplying high quality products, and meet future demand.

Founded in 1890, Glen-Gery is one of the nation's largest brick manufacturers. Glen-Gery products are sold nationally through a large distribution footprint in the United States and Canada.

In order to facilitate a Sicilian bond pattern, where no header joints align, the packages include 15% random lengths (4", 6", 8", 16", 18", 20") and 15% Roman size (3-5/8" x 1-5/8" x 11-5/8") brick for use on corners when covered headers are needed.

There are many bond patterns that may be used successfully as long as the vertical joints do not continue through multiple courses. However, a Sicilian bond pattern, as illustrated above, helps to emphasize the linear aspect of this unique brick.

Brick Shapes

+

Glen-Gery will produce custom brick shapes for projects requiring a specific detail or unusual effect.

Personalized design and engineering services for custom brick sizes and shapes are available.

The versatility of brick on display.

Sophisticated architectural plans often demand more than traditional brick. Glen-Gery's experienced craftsmen have built a portfolio of precise standard shapes, and when design specifications require more, the same experts assist in creating the unique shapes you need for your project.
