# Beautiful products *that last forever.*

---

For more than a century, Glen-Gery has built a reputation for its high quality building products that meet both innovative design challenges and demanding construction specifications. Glen-Gery, part of Brickworks Limited of Australia, offers the most diverse product portfolio of brick products, which are available in a wide-array of colors, sizes and textures and can be used in both commercial and residential applications.

Driven by industry evolution, Glen-Gery is committed to improving its customer experience and quality assurance through ongoing strategic partnerships and investments. We aim to ensure opportunities for the next generation of brick makers, continue supplying high quality products, and meet future demand.

Founded in 1890, Glen-Gery is one of the nation's largest brick manufacturers. Glen-Gery products are sold nationally through a large distribution footprint in the United States and Canada.

Aspen White (Smooth & Craftsman textures), Barely Grey Klaycoat

Silver City is available in  
smooth and wirecut textures.

# Roman Maximus Collection

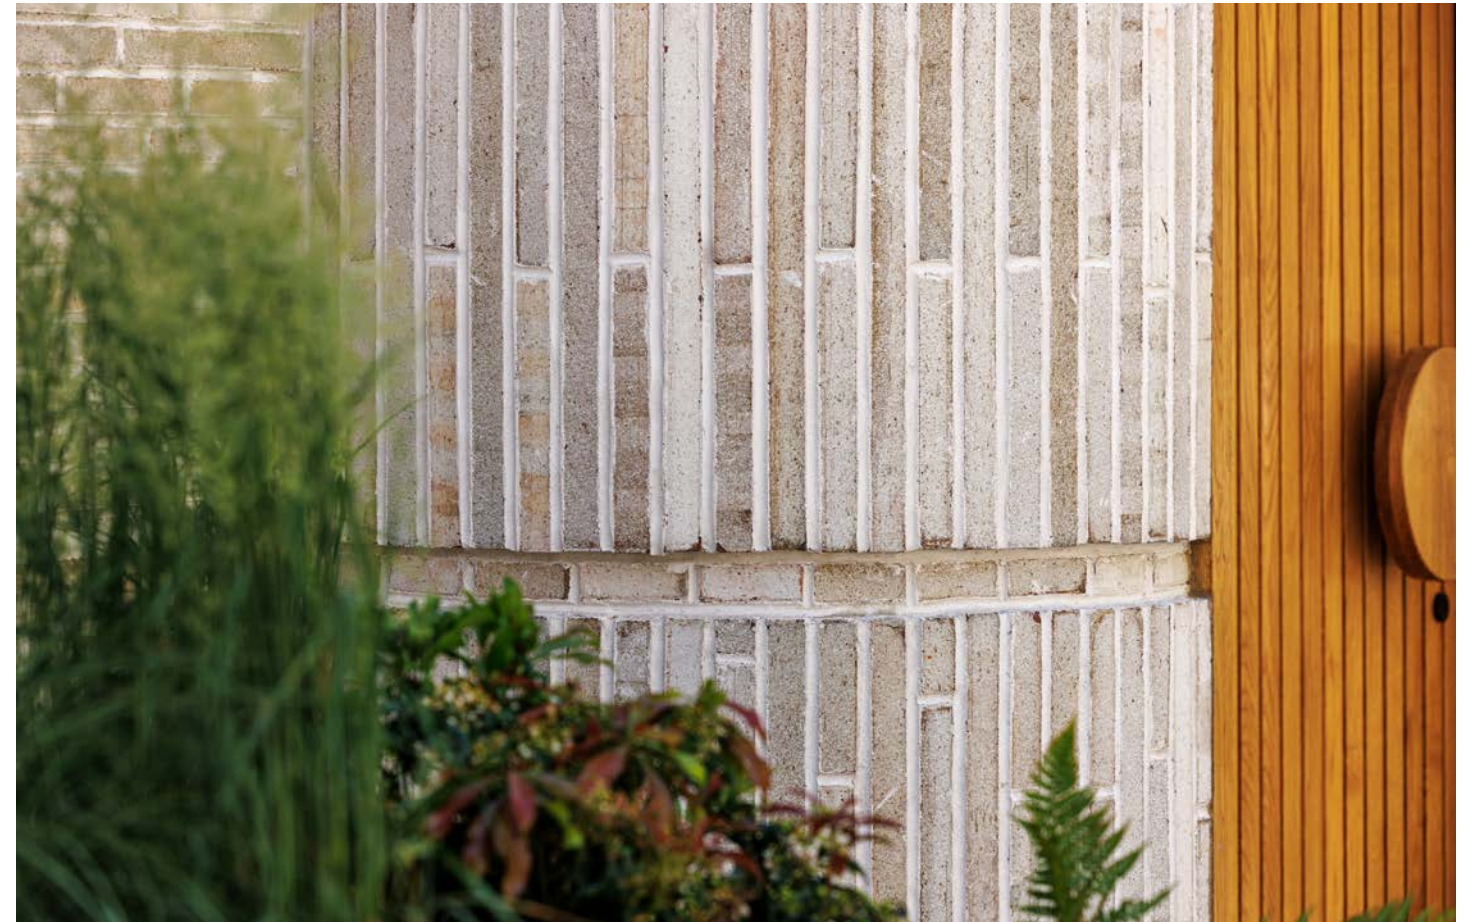

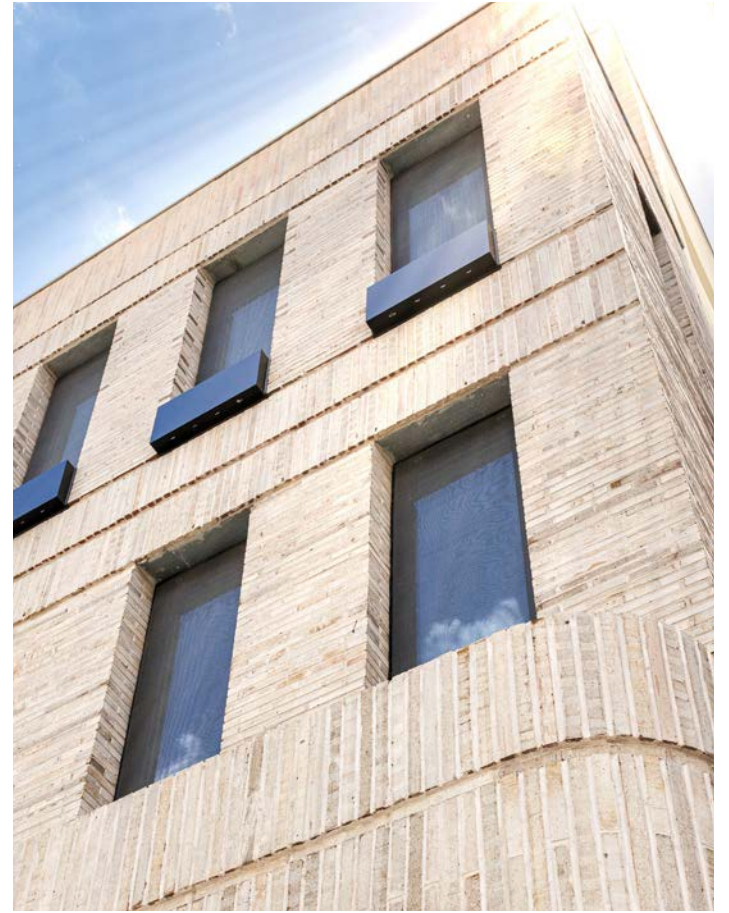

Revel in the greatness of an entire empire.

**Sculpturally dynamic.**

Distinctive and formidable in its stature, Roman Maximus commands attention like no other.

[ LEFT: Black Roman Maximus, TOP & BOTTOM RIGHT: Columbia Roman Maximus ]

Black Roman Maximus

# Roman Maximus

Elevate your aesthetic with the elegant and elongated Roman Maximus Series, the longest available clay brick manufactured in North America. The product measures 3 5/8" x 1 5/8" x 23 5/8". This solid unit weighs 11.5 pounds per brick, making up one square foot per three brick.

ADEL • Catalog size: Roman Maximus (3 5/8" x 1 5/8" x 23 5/8")

Columbia

Flint Hills

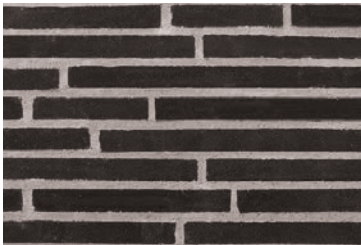

Flint Hills  
with black

Sand Hills Red

Saddle Brown

Black

In order to facilitate a Sicilian bond pattern, where no header joints align, the packages include:  
70% Roman Maximus size (3 5/8" x 1 5/8" x 23 5/8")  
15% random lengths (4", 6", 8", 16", 18", 20") and  
15% Roman size (3 5/8" x 1 5/8" x 11 5/8") brick for use on corners when covered headers are needed.

There are many bond patterns that may be used successfully as long as the vertical joints do not continue through multiple courses. However, a Sicilian bond pattern, as illustrated above, helps to emphasize the linear aspect of this unique brick.

# International Collection

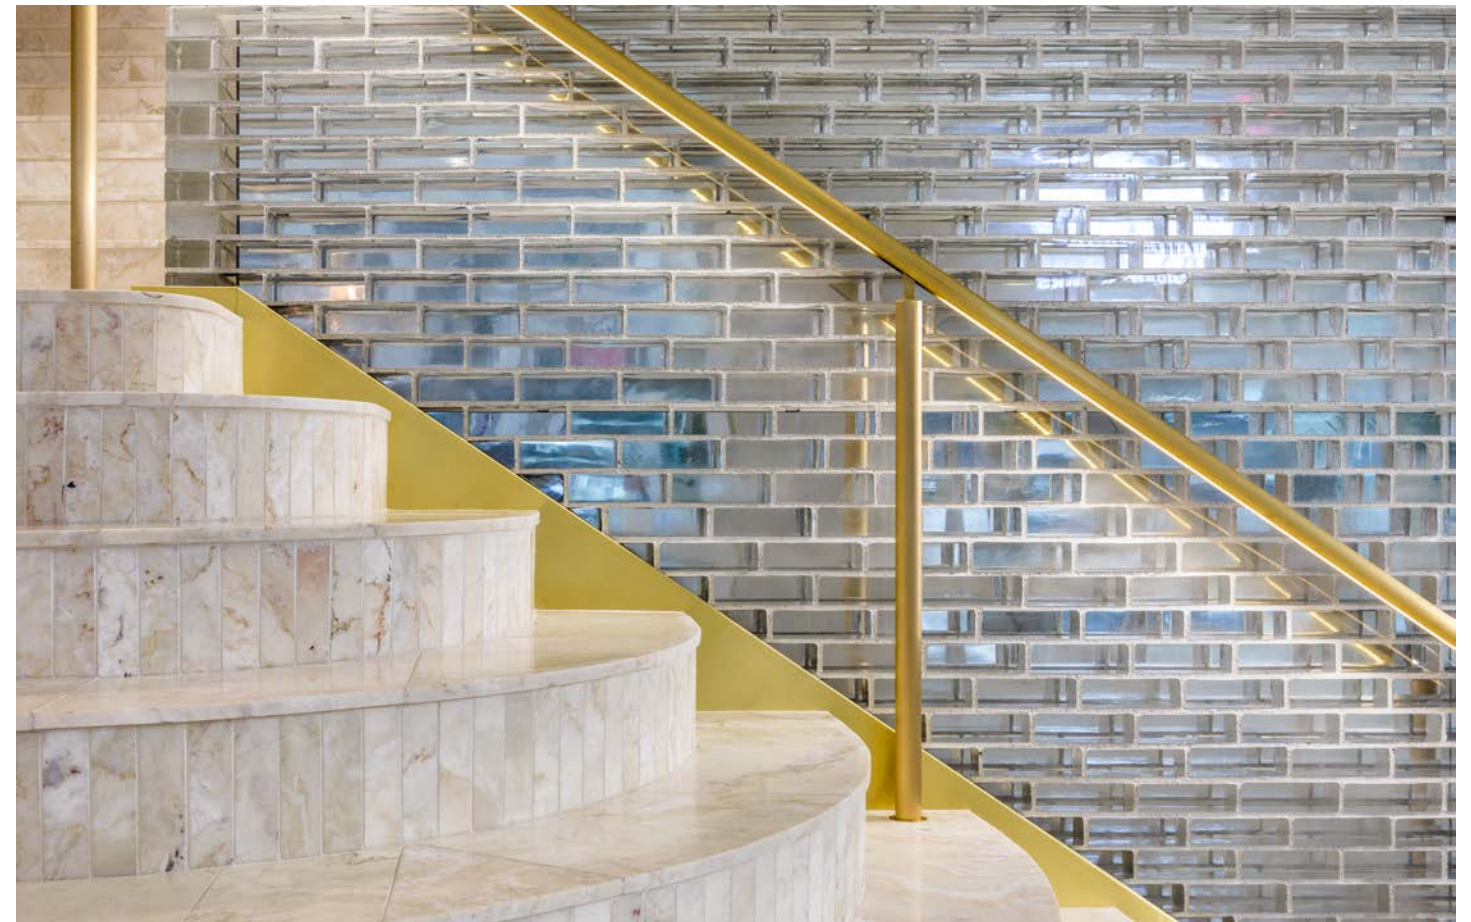

Expanding our portfolio.

## An illuminated vision.

Revel in the clarity and refined elegance of our international products. The possibilities are truly trans-formative.

## The versatility of brick on display.

Sophisticated architectural plans often demand more than traditional brick. Glen-Gery's experienced craftsmen have built a portfolio of precise standard shapes, and when design specifications require more, the same experts assist in creating the unique shapes you need for your project.

Glen-Gery will produce custom brick shapes for projects requiring a specific detail or unusual effect. Personalized design and engineering services for custom brick sizes and shapes are available.

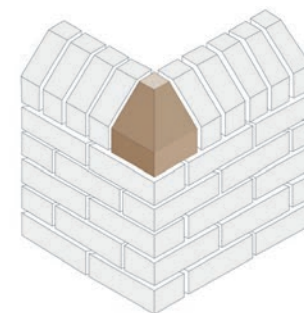

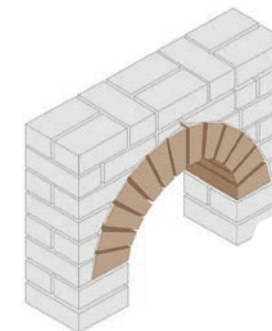

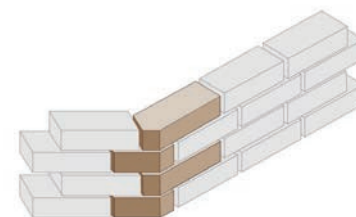

Angle Brick

Arched Brick

Sloped Soldier Brick

A black and white photograph of four people—three men and one woman—standing in a row against a dark background. They are dressed in casual, work-appropriate clothing like denim shirts and t-shirts. Each person is holding a geometric object: the first man holds a rectangular block, the woman holds two stacked blocks, the second man holds a curved, wedge-shaped block, and the third man holds a rectangular block. The lighting is dramatic, highlighting their faces and the objects they are holding.

# From Concept to Creation

ARCHITECT SHAPES COLLABORATION PROGRAM

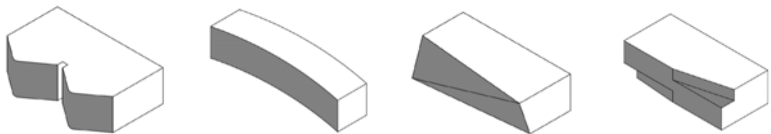

SCAN TO  
PLAY VIDEO

# Architect Shapes Collaboration |

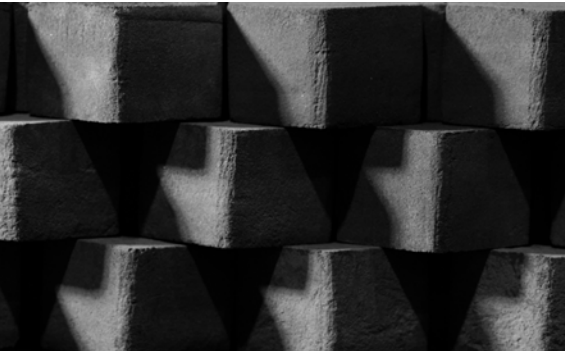

Four winners have been named as part of our inaugural Architect Collaboration Program. The collaboration invited architects, designers and students to submit original designs for custom brick shapes. The selected architects brought their designs to life at our Mid-Atlantic Manufacturing Plant, where they hand-molded their custom brick shapes. These unique bricks are now primed to serve as the centerpiece of conceptual building projects.

Glen-Gery offers custom brick shapes to meet the specific needs of any project, showcasing the creative versatility of brick in architectural design. These meticulously crafted shapes, including water tables, sills, copings, corners and arches, enhance the visual appeal and functionality of buildings.

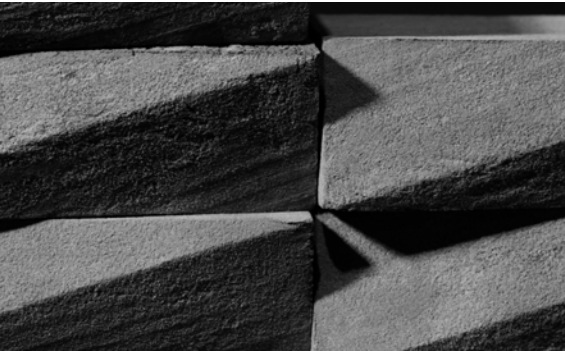

SCAN TO  
VIEW SHAPES

*Years ago architect Louis Kahn famously asked,  
“what does a brick want to be?”  
I think today we ask,  
“What do we want a brick to be?”*

**Brittany Macomber**  
**"Trigon Brick"**  
**Morris Adjmi Architects**

The Trigon Brick is a modern interpretation of classic brick details found on structural masonry walls. The dimension and depth of the brick provide versatility, allowing the brick to be expressed on its own, or integrated with modular bricks to create unique patterns.

**Justin Bright**  
**"Facet Brick"**  
**Gnome Architects**

Opposite corners of the Facet Brick are chamfered to create a diagonal facet on the front face. Depending on the orientation and coursing, this simple unit offers various patterns and textural effects.

**Edward Jose**  
**"Curve"**  
**Loci Architecture**

The Curve is a simple elongated curved brick that can be laid in various wall configurations to achieve different surface effects. The curve of the shape allows its thinner profile to reduce material and weight in a typical brick veneer cavity wall assembly while still maintaining stability.

**Colin Rupp**  
**"The Weaver"**  
**Gnome Architects**

This shape utilizes an alternating bevel, all within a standard size. The mirrored detailing allows for a unique set of weaving textures and plays with solid/void.

The Glen-Gery Brick Calculator makes estimating costs as easy as 1, 2, 3!

Calculate everything from quantity of brick needed, to cost per square foot and more!

[www.glengery.com/brick-calculator](http://www.glengery.com/brick-calculator)

Many of our facebrick have matching brick pavers. View our selection of genuine clay pavers at the link below.
